

MUSH with PRIDE Voluntary Kennel Certification

Letter to Designated Inspector

Dear Inspector:

The Board of Mush with PRIDE has developed a kennel inspection certification program at the request of members, mushers and kennel owners. We hope this program will be another step in the educational process to ensure all sled-dogs are given safe and humane care.

The following form is provided to you as a checklist to ensure the kennel meets all the minimum requirements for basic humane care of sled dogs. Note that inspection is voluntary, and only at the request of the kennel owner who must be a current member of Mush with PRIDE. The kennel owner will provide you with a copy of the Sled Dog Care Guidelines, 3rd Edition prior to your inspection for guidance about the specific items you will be addressing. These guidelines are available for free download online. Checklist items are referenced to specific page numbers of this online document. Please contact the Mush with PRIDE Board if you have any concerns.

Please have the kennel owner initial where their endorsement is required. This is required as you cannot verify what kennel practices are on a daily basis. Only if all the mandatory standards are met and all items are checked in the "Yes" box should you certify that the kennel has met the standards as set forth by the guidelines provided by Mush with PRIDE. The optional items are highly recommended by the Mush with PRIDE Board; however the Board does not feel that they are essential. The kennel owner will receive a higher rating ("Certification Plus") for meeting a majority of them.

Please ensure a representative photo of the kennel is provided with the inspection paperwork, along with any comments you feel necessary, either positive or negative.

The Board emphasizes that by signing the statement at the end of the checklist, you agree only that you have personally inspected the kennel and it does or does not meet the described standards on that day. You are not personally or professionally certifying that you agree with or endorse any of the specific guidelines of Mush with PRIDE.

After the form is received by the Board, a certificate of inspection will be mailed to the member stating the level of certification that the kennel has achieved.

The Mush with PRIDE Board suggests that inspectors set their own fees for services for the site visit/inspection and these fees are the responsibility of the kennel owner. Mush with PRIDE does not provide any funds for the kennel inspections.

Thank you for helping promote humane and proper care of sled-dogs.

The Board of Mush with PRIDE
