INTRODUCTION

Minemec Diesel Services Australia Pty Ltd is a company based in Adelaide and Western Australia specialising in providing highly qualified and experienced heavy diesel mechanics to the mining, civil and transport industries across Australia. With two decades of experience in the field, we understand the critical importance of maintaining your equipment in optimal working condition.

Our team of skilled heavy diesel mechanics are available around the clock to provide on-site field service. We are committed to ensuring that any equipment breakdowns are addressed promptly and effectively, minimising downtime and disruption to your operations.

In addition to providing top-tier services, we are flexible in our business engagements. We are open to taking on contracts and also have the capacity to work as subcontractors, depending on your specific needs. We look forward to assisting you to add value to your projects with our specialised skills and commitment to excellence. Don't hesitate to reach out to us for any additional information or questions.

CORE COMPETENCIES

SAFETY

- At Minemec, safety is a top priority for both the team and clients. They ensure compliance with safety regulations and provide regular training to stay updated on industry standards.

QUALITY

- Quality assurance is a top priority, with strict measures in place to ensure consistent high standards in services for trusted quality delivery.

TECHNOLOGY

- We embrace technology to enhance services, seeking efficiency and effectiveness through the latest tools. Join us to unlock new possibilities for your business.

INNOVATION

- At Minemec, fostering innovation and pushing boundaries is key. The company encourages thinking outside the box to solve complex issues, focusing on progress and driving the industry forward.

TRAINING

- Our team undergoes continuous training to remain current with industry standards and technologies, with the goal of providing exceptional service to our clients.

OUR MISSION

Our mission is to provide reliable and efficient maintenance and repair services; delivering the highest quality workmanship, and customer satisfaction. We strive to exceed our client's expectations, ensuring their equipment performs at its peak efficiency, minimising downtime, and maximising productivity. Safety is our top priority. We are committed to maintaining a safe working environment for our team and clients, adhering to the highest safety standards and practices in all our operations.

OUR VISION

Our vision is to establish new standards as heavy diesel mechanics by delivering exceptional technical expertise, commitment to quality workmanship, and providing unparalleled customer service.
