

Selling timeline

This diagram is designed to show a typical selling timeline in England and the main steps involved from marketing until completing (when the property is legally sold). Every sale, and therefore timescale is, of course, unique.

Have a look at our Turners Oak timeline to see how our service not only supports you through the typical stages but also provides advice, information and support much earlier to help you decide whether moving is right for you or not.

NOTE: When a property is also being purchased the legal stages occur in relation to the purchase, hopefully simultaneously with the sale, as do the sales and purchases for anyone else involved in your chain.

A chain is a sequence of linked property sale and purchases, each of which is dependent on the preceding and succeeding purchase.

Don't forget. We have more free resources including a jargon buster on our website:
