HW stole 150k per month from Biorad paying VIPDx with money I raised for the WPI
HW managed and directed my staff and every aspect of business
He was not simply an attorney he physically threatened me on several occasions to try to intimidate me into misrepresenting data
He clearly intimidated and stalked max and Regan

Thanks. BTW: HW never said that he was totally uninvolved with WPI.
In an affidavit filed in this case, he referred to himself as an attorney for and an unpaid advisor to WPI. Acting as an attorney could explain lots of the things he did, as described in emails I've received today. I'm focusing on his **management** activities, showing he did more than what a mere attorney would do. -Dennis

This looks excellent. I would not have changed anything. I am glad that:

1. You got this out quickly
2. It clearly states that the W-P Institute is top priority, even when considering Category 3 projects.
3. You covered all the moving, housing, etc
4. You conveyed an eagerness to get going on the 15th

ps I am happy Partnerbear in all of the above!

love Happybear

PS Thank you for the stress info. I am following the protocol. If I feel like it, I will deposit checks today.

Dear Harvey and Annette,

As discussed the offer for full time employment with the Wingfield Nevada group will be structured as follows:

Compensation will start at \$180,000 per year with a \$20,000 bonus. The contract will be for a duration of 5 years beginning November 15th 2006.

The responsibilities will be equally divided between 3 entities in the following priority:

- 1) Whittemore-Peterson Institute for Neuro-Immune Disease where I will be the VP/Director of basic research
- 2) Technical advisor/Chief technical officer for Redlabs USA where I will provide technical expertise for assay development
- 3) Products LLC/Simaron LLC a for profit company to pursue Drug discovery/development and other therapeutics, diagnostics and business entities the profits of which will be directed back to the research efforts of the WPI.

Within the second and third entities, I will have the opportunity to earn additional income in the form of annual bonus at a rate of ~20% of that which is generated by business endeavors initiated

For example as a consultant to Genyou Biomed, I earn \$100.00 per hour in consultant services for drug development for CFS, antivirals and CFS-associated lymphoma. 80% of such earnings would go back to Wingfield Nevada group, 20% would accrue as part of annual bonus. Similarly, for funded research grants on behalf of the WPI, I would receive compensation reflective of level of effort on each grant.

All work done under category 3 would be solely initiated and conducted to support the goals of the basic research program of the WPI

A few additional details that were not formally discussed:

- 1) Compensation for services rendered September 15-November 15th
- 2) Signing bonus or relocation compensation to cover down payment, furniture moving expenses

Additional Items 1 and 2 to be mutually agreed upon and not to exceed \$50,000

David and I are planning to drive one of our cars to Reno over the Thanksgiving holiday as a first step in the relocation process. If Chase's condo is available as temporary housing or you can recommend a good real estate agent, we would appreciate any efforts on our behalf in the relocation. We are extremely excited to get settled in Reno as soon as possible. I look forward to seeing you on the 15th.

Best regards

Judy
