

# In The Dark Park

Alternative/Indie Band

Press Kit | 2026

**In The Dark Park** is an alternative / synth-wave indie band from New Westminster, BC, Canada, crafting immersive, cinematic soundscapes that blur genre boundaries. Their music weaves melodic atmospheres with jazz-fusion elements, synth-driven textures, grunge-tinged guitar, and rich layered harmonies. Rooted in the emotional pull of nostalgia and the moody beauty of the Pacific Northwest, their sound feels both familiar and exploratory—equal parts dark, atmospheric introspection and uplifting, expansive energy. Drawing inspiration from the music of the '80s and '90s, they experiment with unexpected combinations, creating songs that evolve and surprise without losing their emotional core. The band released *Understory* in December 2024, with a new EP *Same Old Live* scheduled for May 2026 and their second album under way.

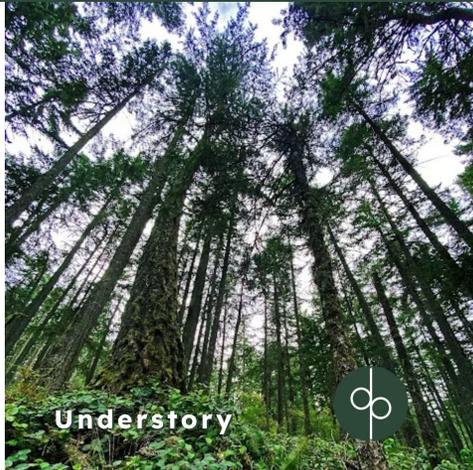

Debut Album: *Understory*
