PROFILE

Frven Lim is an expert in the field of wellbeing design. His methodology is evident-based and the techniques involve applied research of his own studies as well as interpreted adaptations of studies by Neuroscientists and other human behaviours specialists.

Wellbeing Expertise

Frven is a thought leader in the topic of holistic wellbeing design. He champions the motto of "making a difference through design". This is evident in his thought leadership articles and openly accessible webinars in social media platforms. His unique skills lies in the global and human-centric approach to wellbeing applied research.

As a keen advocate, he is often invited to speak at webinars and conferences on the topic of how architecture and design affects the inhabitants' wellbeing and happiness. This thrust is coined #WHAD, which stands for "wellbeing+happiness through Architecture+Design", and is steadily amplifying the discourse across the more ambitious tribe of architects and designers, who believe in the importance of meaning and purpose.

This specific field is particularly relevant for developers and all real estate players; in particular, to deliver products/services that are truly value-packed in a highly competitive market. More importantly, it is also the conduit for designers to fulfil the holistic mission of truly creating better places and spaces. To elevate humanity's wellbeing.

Professional Career Roles

2016- DP Architects (London Studio Director)
2021-22: Guest Tutor at Harvard GSD, NUS
2016: Adjaye Associates, Project Lead
2003-15: Surbana
1999-2003: HDB

Technical Achievements

Frven is an Architect who specialises in the fiHe has a built track record of >11,000 residential units and >2 million square meters over his 23-year professional career.

He trained at the Architectural Association in London, where he received his AA diploma in 1999 and MA (Distinction) in the field of Landscape Urbanism in 2001. He practices with an attitude of experimentation and research. This originality is evident in his works, and has earned him several high-profile design recognitions, including the prestigious '20 under 45' accolade accorded by Singapore's Urban and Redevelopment Authority in 2010.

Throughout his career, Frven has led and spearheaded design studios in Singapore and London. His repertoire included projects ranging from the smallest bespoke urban insertions to large-scale townships and Masterplans. The diverse portfolio across Asia, the Middle-East, India, China, UK, and Europe range from private residential, commercial and retail schemes to government/public commissions.
