Are you a first-time Amtryke/Adaptive Bike recipient? ☐ Yes ☐ No

Do you have a place to store the Amtryke/Adaptive Bike out of the weather? ☐ Yes ☐ No

Do you have a vehicle to transport the Amtryke/Adaptive Bike? ☐ Yes ☐ No

*If NO, do you have a safe place to ride the Amtryke/Adaptive Bike? ☐ Yes ☐ No

Tell us about the recipient:

Iron City Trykes/Birmingham AMBUCS has a suggested \$100 donation, but this is not required in order to receive your bike. We will provide each accepted recipient with a fundraising link that can be shared with family, friends, and your community to assist us cover the costs of your bike and others. Our bikes average between \$900-\$1900, so any amount contributed through your efforts is greatly appreciated and will help us impact more riders.

**Our bikes are distributed based on available funds, current inventory, and need. Individual placements of the bikes are at the discretion of the local chapter.*

Individuals will not be considered for placement until this application is complete and submitted including: request form, waiver, assessment & Bike Selection Forms (completed by PT, OT, or other Qualified Professional).

AmTryke Adaptive Tricycle Waiver Form

(Must be filled out completely by adult rider or parent/guardian)

AMBUCS members nationwide are dedicated to creating opportunities for mobility and independence by providing Amtryke adaptive tricycles, offering educational scholarships to therapy students and performing various forms of community service.

Purpose: The Amtryke adaptive tricycle creates a feeling of freedom, builds self-esteem, strengthens muscles and improves motor coordination and range of motion—all while making exercise fun.

Steering: Initially, the rider may have difficulty turning or changing directions. Encourage the rider to go straight ahead, back up and slowly turn around. On many models there are three steering options for the Amtryke. On the front column of the tricycle, you will find two holes for the steering pin. The top hole is straight steering, the bottom hole allows a 20-degree turning radius. Leaving the pin out gives the rider free steering.

Safety Cautions

- Fast speeds and sharp turns can cause the Amtryke adaptive tricycle to tip or turn over.
- Always wear a helmet when riding an Amtryke or any bike. Use of other protective gear is highly recommended.
- Adult supervision required if used by younger or developmentally delayed riders.
- Use caution near vehicles, swimming pools and other bodies of water, hills, alleys and sloped driveways.
- Always wear closed toe shoes.
- Never allow more than one rider.
- Use of the steering pin is recommended to prevent over-steering or possible tip-overs.

The information contained in this service is not intended nor implied by National AMBUCS™, Inc. to be professional medical advice by National AMBUCS, Inc. Always seek the advice of your physician, therapist or other qualified healthcare provider prior to starting any treatment or with any question you may have regarding a medical condition.
