Dear Mr. Bongino:

We are writing to respectfully request your support in ending the outrageous attack upon families being perpetrated by the so-called justice system in this country. This is not hyperbole. We refer specifically to the State of Arizona in this video. The very people in positions of power that we citizens depend upon to facilitate justice and protection are instead participating in what we believe is a sophisticated child trafficking scheme. Some members of the FBI are jailing us to stop us.

Ms. Carla Johnson of Arizona has lost three of her grandchildren to the State of Arizona's CPS. Attorney General Tom Horne has ignored pleading for justice. These abuses, however, continue today and as you can see from the videos the FBI agents are the ones who put Ed in jail. Children have been seized without warrant or due process in direct violation of the Fourth Amendment. Judges are trained to operate their courts as criminal enterprises. We have hundreds to prosecute but need eyes on our efforts and someone to have our backs. There is no justice for families unless you or the media and DOJ protect us. Public defenders refuse to submit exculpatory evidence that would cause the CPS's case to fall apart. We believe that this is but a symptom of a wide-ranging web of child trafficking for profit. There are thousands of judges we are seeking to prosecute across the country. Please watch the videos and see for yourself. [Bing Videos](#) Judge Margaret Marshall and Judge Laurie MacLeod have found out we are in earnest. We are working with Jessica Saxon of Justice Without Borders (who I believe would also appear on your show) and Justice for Families, to help with the legal end of the process. You must get hundreds of requests like this. However, our only desire is that you vet this story, and these allegations and bring them to the public eye on the new or current cases. You have a powerful voice in the social media sphere in the FBI and society in general. What is needed is the bright and cleansing light of public scrutiny to reveal the real evil being perpetrated. These people have operated from positions of power and hubris for so long that they feel they are legally untouchable. We assure you they are not, but we just need your help to save these kids. We know we are in the Lion's den and putting our lives on the line. The sad part is that the ones who are supposed to protect are the persecutors. In my heart I know you could be substantial protection by stopping the FBI's frauds. We will continue to go with or without those who do not have the courage to save our Children and Country for the most egregious tormenting and kidnapping. "Not to speak is to speak, not to act is to act, God will not hold us guiltless" so we press on.

A proactive approach not only protects children but also helps build healthier families and stronger communities. We also bring to justice those who engage in this heinous behavior.

I am including a memo we are working on and would be grateful for any assistance, guidance, or resources you can provide to advance the exposure of this effort and free the political prisoners.

Thank you for your time, attention, and commitment to the safety and well-being of children and restoring Justice.

Sincerely,
