GRANTS

Our greatest achievement all year is the number of grants we are able to award deserving teachers with innovative classroom instruction ideas. Each teacher is responsible for submitting for a grant that will support their unique idea to drive learning forward.

## GRANT HIGHLIGHT: NEXT COLLEGE READINESS PROGRAM

NEXT challenges, inspires, and empowers students to pursue post secondary education, whether that means a four year university, community college, military or technical career. Within its first three years as an Education Foundation grant recipient, NEXT College & Career Readiness has helped East View and GHS students reach their dreams of higher education. During this time, NEXT has completed 9 college visits to 12 different colleges, over 24 hours of whole group community service, and an estimated 175 hours of student meetings at which high school students of all backgrounds receive mentorship on how to plan, prepare, apply and pay for college. At NEXT, what may once be a distant dream for many students becomes an attainable reality on how to plan, prepare, apply and pay for college.
