

# YES FOR CIVIL ENGINEERS

Expand your scope. Win bigger jobs. Keep your team focused.

YES is the entitlement plug-in your firm didn't know it needed. We help you offer full-service proposals—without adding headcount or overhead.

From zoning to site plan approvals, we handle the politics and process so your engineers can focus on engineering.

## WHY YES?

- Entitlements are often the missing piece on big proposals
- Compete for larger jobs
- Offload coordination, meetings, and permit chasing
- Capture more revenue with pass-through billing

## WHAT YOU'LL GET

A strategic subconsultant who speaks both agency, client, and engineer

Zoning, site plan, construction drawing and permit coordination

QuickCheck reports to support feasibility analysis

Public hearing prep, staff liaison, and agency coordination

Flexible scope: by project, by phase, or retainer

No markup, no fluff. Just added capability and results
