

Project Manager

Edge Ecosystems

Purposeful Landscaping- Turning Underutilized Spaces into Productive Landscapes

Edge Ecosystems is an ecological restoration and permaculture company. We create functioning systems for the benefit of people, plants, and animals. Example projects are native restoration, rain gardens, food forests, perennial gardens, agroforestry, etc. Edge Ecosystems is a young company offering an opportunity for select individuals to get in on the ground floor of a unique organization.

Edge Ecosystems is seeking to hire people who are passionate about ecological restoration and permaculture and want to do it for a living. We are seeking experienced and skilled team members that will help implement and manage these systems. A variety of skills and experiences are welcomed, as the work we do can be complex.
