

At much insistence from Harvey Bear's Fanbase, Educator/Author Aurora M. González de Freire wrote a book to help her students and Harvey Bear's fans understand what it takes to stay strong in the face of widespread community illness...in Harvey's case, it's a case of **IckyBooCachoo**.

Children, their families, and community care providers can see how to carefully get through a pandemic and process the emotions it brings.

Harvey Bear Braves IckyBooCachoo is the third title in her #HOPE and #HEALING series of books. This one is done as a complete story but in coloring book format.
