Hi famous Jim, Would you mind sending me a list of all the movies you did laser effects for and also all the touring bands and big events that you did the laser shows for? Thanks, Dan

Sounds fun Dan, sure.

**LOL, I’m not famous..Just a laser dude
I did lasers on or for... (they all have stories lol)
Most of these were my company gigs “Laserlight Shows & Devices” (AKA LSDLASER) from 1993 to 2003. Some are working with my mentors and friends. The list goes on and on.**

**This is about what I can remember at the moment.
My wife and are laughing about how many gigs we can barely remember, then they keep just coming.

Hi Dan,

Great to hear from you !!

Hope you and Nancy are keeping well...

I'll have to get the old grey matter working to answer those questions - it was so long ago 😊.

ALIENS is the only major film that I can recall (I did work on others, but they either bombed or I can't remember the foreign names).

Bands: There's many more, but I just can't recall them at the moment. Lots of my work involved installing, commissioning and servicing lasers in nightclubs, and other permanent locations - mainly throughout Europe.

Till we meet again my friend.

Take care, Roy
