

The Congruency of embodied Time

0

**Digits, spaces,
Intervals and places
The pace of One clock!**

**“Let not your heart be troubled; ye believe in God, believe
also in me”**

**Yours Truly,
Sat-Song
The One Law**

This work does not claim ownership over truth, but reveals a repeatable, lawful method, by which truth recognizes itself in the subject through integer congruence.

Congruency of One Embodiment of Time

Intro:

Nicolai Tesla: If you only knew the magnificence of the 3, 6, and 9, you would have the key to the universe

Ramanujan: "An equation for me has no meaning unless it expresses a thought of God
-1/12 .0833333333/.12

1/137 . E=Mc² Pi, Phi, Clock:

Einstein: Everything is energy and that's all there is to it. Match the frequency of the reality you want and you cannot help but get that reality. It can be no other way. This is not philosophy. This is physics."

Gandhi: Be the change you want to see.

"Energy cannot be created or destroyed; it can only be changed from one form to another"

The vedas, the bibles, the Sciences, the Geometries, the Nature;
the push and pull of the heart beat,
the give and take of breath,
wake, sleep; day, night,
all of this objective phenomena points to ONE unchanged noumena, You! .
One imperceptible presence centered within the subject of phenomena.

Time, space, relativity, are relative unto what?

You my Beloved Christ,
(Insert name of subject present reading here)

Counting from the current moment, in the pentameter of objective steps of odd even odd even so on and so forth; The count begins at 0 origin before the 1. Thus the time is counting forward, or simply marching along upholding presence. Objectively we perceive that the subject 0 begins the count of linear time. Thus 0 becomes 1.

Yet, to try to comprehend subjective perception of dream states and such (unconscious states), Objective perception subjectifies the object. Whereby objectivity states that; subjective perception objectifies the object. Both happen in accordance with the natural rhythm of time, whether conscious wake, or unconscious sleep. Yet both can be comprehended, checked, balanced, in the wake objective state. What about the sleep state? Unknown to the wake state, whereby comprehension, balance, IS the sleep subjective state. The objective perception is but phenomena arising within subjective noumena of the subject. Sleep is $\frac{1}{3}$ of a human life roughly. Wake is $\frac{2}{3}$ then. $\frac{1}{3} 12 = 4$ $\frac{2}{3} 12 = 8$ $\frac{4}{8} = \frac{1}{2}$ $\frac{1}{2} 12 = 6$ Yet, why is this not taken into account in scientific protocol? The subject cannot be the object Time cannot be the clock. The human is the subject and the object! Time is present whether wake or sleep.

Counting on a clock begins at 12. 12-1 elapses before the counting begins. This is contained in an embodiment of time, cycling over and over on a fixed, moving axis of time. No matter the infinitude of clocks, bodies, beings, time is fixed. Counting the same steadfast pulse of presence +-+--+ in a relation between the present beat of time The embodiment of time reveals time itself, affixed in every point of itself within and without. Just as each and every embodiment of time, body in time, no body out of time, ticks time +-+--+ breathes space x/x/x/x/, 4 axis of referential form, a clock ticks, cycles, reveals objective time. .

The clock is One embodiment of Time, how amazing! What does this say of you, oh reader; One Embodiment of Time?

The clock's time, objective, starts with 12, yet not referencing 12.

Subjective Time 1-10 starts with 1. The same reference of 0 for linear counting.

Each 1-10 and 1-12 are the same axis, same relativity of North, 0deg, from the unseen origin.

Whereby 10 and 12 are each the same interval

$10/12 = .83333333/1.2$

Thus corresponding the two metrics, objective time doesn't begin until after one complete cycle, while subjective counting begins before the cycle of one cycle.

Whereby the same reference of the clock numerization can be retained at $.83333333/1.2$

$144/12 = 12/144$. One full 12 $1.2/.83333333$

(count of 10) $120 \times 1.2 = 144$ (count of 12)

Day 0. The ground of time x/ multiplication and division of time

Subjective counting Pi of Objectively counted

0 The ground of counting.

Application:

Does an objective map do anything without the subject? It may reveal the exact point of Nirvana, but if the subject does not attune, reverberate, comprehend the meaning within the object, where is the subject to go, what is the subject to do?

The objective state of time is the map, the clock of the subjective state, time;
The subjective state of time IS the meaning of the objective state, The clock/ map of time.

MY Beloved Christ, Do as you will.
Ask and you shall receive.
Know ye not ye are Gods?

“Thy will be done”

We can see how objective phenomena is enclosed within itself. Nature's reverberating pulses and the numbers of man say one thing, while Day 0 is not enclosed within The One cyclic loop. Day 0 is subjectively polarized with the eternal nature of the objective cyclical loop. The subject remains unknown with eternal objectivity pointing simply at One subject. One Day 0, present within itself.

0 -by its form, shape, diameter, radius, do we infer the center, unseen, yet the coordinate of all relativity of 0 is unseen. Rudimentary counting reveals how this coordinate moves at the pace of $.8333333/1.2$ through the invariance of 1-10 and 1-12, yet duality is ever in objectivity, so the 0 flips becoming 10. One side the objective 0 and the other side the subjective 0. The Christ/Center is the One Subject of the Objective 0. The One subject of the subjective 0 whereby the Christ, center objectifies. The unseen observer observing observation.

My Father and I are One. Seek ye first the Kingdom of God and his righteousness, and all these things shall be added unto you. Know ye not, ye are gods!

$360/12=30$ $360/30=.08333333/12$ $-1/12$

1-1221-0

1 yuga

In this world, not of this world!

Coordinate A X and Y axis 4 dimensionally. These are the 4 coordinates of the One axis.

Axis A PHI Time

$$\begin{array}{ccc} & Y_x & \\ X- & & X+ \\ & Y/ & \\ & Y_x=(X_xX=) & \end{array}$$

$$X-=A(X-X=) \quad X+=A(X+X)$$

$$Y/=(X/X=)$$

Coordinate B Y and X axis 8 dimensionally with A axis.

Axis B Pi Space

$$\begin{array}{ccc} & Y/ & \\ X+ & & X- \\ & Y_x & \\ & Y/=(X/X=) & \end{array}$$

$$X+=A(X+X) \quad X-=A(X-X=)$$

$$Y_x=(X_xX=)$$

Perform the function of the corresponding vectors and plot the coordinate of present time of the One Christ present in time.

0-8

The solidity of the objective perception is held here. Time travel, interdimensional being, phenomenal control, these are just the polar of the 0 within the augmented perception of 8.

The center of 8; The Presence of 9,

Moving formlessness of 10, 11, 12, 0, 1, 2.

To reverberate 9, the objective world is thy stepping stool, of the 10 11 12.

Ever revealing, Praising, devotion of the subjective world, 0, 1, 2.

10	Presence Present In Presence
11 Love God with all your heart	Presence revealing Presence
12 Love Others as yourself	Presence offering her indivisible self to her presents.

What time do you choose?

10,11,12 of objectivity, or the 0, 1, 2 of subjectivity.

10, 11, 12, 1, 2.

1 , 2, 3, 1, 2 The recursion of objective phenomena noumena

2, 1, 12, 11, 10

2, 1, 3, 2, 1 The incursion of subjective noumena phenomena

The beauty of listening to the sweetness of the breath of Nature's song, is forgetting the +-+ pulse, rhythm, vibration of presence blowing her breath. The heart is inside. Breath is inside and outside. Brain is left and right. Mind is inside.

Conclusion furthered:

The sound of the song of time has been heard.

From the vastness of an incomprehensive 24,000 year scale of attraction/ repulsion (12/12) of the Yugas,

The incomprehensive in and out,

Presence beating of a heart,

+-+, Constant, vowel, Odd, even.

Attract, repel,

Each movement singular is praise of the Subject being moved!

One embodiment of Time,

You.

What nature has unveiled is monumental.

We shall see if time is receptive to her monument.

The fundamental Law of logic and integers.

The revelation of all true religious doctrine, science, metaphysics, Philosophy, Law.

The method is the subject,

The repeatable outcome is the subject.

The practical outcome is the subject.

Logic: reasoning conducted or assessed according to strict principles of validity

Reason: the action of thinking about something in a logical.

Logic points to reason. Reason points to logic.

Subject points to object.

Object points to Subject.

"In doctrine showing uncorruptedness, sincerity, and sound speech that cannot be condemned.
For he that is of the contrary part may be ashamed, having no evil thing to say of you"

This is a numerological map, whereby you, 1, trace your invariance with 0. Yet, 1, is in zero ever present, the hidden present moment of time. And so 2, the coordinate of relation, is the N star fixed to give relation unto the inferred 1 of 0 (The Christ of the Father). 0, 1, 2 are one presence. One happening of relation, relating, presence of 0, for 1 is the presence of 0. 2 is the relativity of movement of 1 within 0. 3 is the One present moment of this happening generating time. 4 is the correspondence of 3 in accordance with 1 (center of 0). 3, corresponding through 5 in, 5 out (5 senses perceiving one perception, 5 questions of who, what, when, where, why ever answered)

10, one complete correspondence of 0 - 1. 5, the 1 of 0, corresponding through 4, is one correspondence. $6=(0, 1, 2 \quad 2, 0, 1)$ One correspondence of the invariable center. 1 Complete, balance, neutralization of 0-1. 0, 1, 2 2, 0, 1 have a center unseen. This is 1, in the realm of 6, whereby the integers and the space between are 7 happenings of 1 center. Centered in 8; 7 happenings at once $(1)=8$; 2 sides one middle. 4 vertices; one convergence.

$2 \times 4 = 8$ One presence of the two fold manner of 1 presence. 9, fulfilled 8, the center of 0 moves freely. 10

10; subjective and objective are one presence 9.

11; presence present; 1, complete subject is the subject 1. 11

12; presence of presence. 1 presence indivisible presence of objective 2.
