## Classes Offered/Curriculum & Placements

### *Level Placements*

Students are initially assigned to classes based on their age. Given the variability in physical development and emotional maturity, comprehension, and competency of execution among children, it is not uncommon to observe students of different ages at varying proficiency levels. Instructors undertake a thorough assessment to accurately place students in the appropriate level. Ballet mastery is a gradual process that often entails students repeating levels over several years before progressing to the subsequent level. Parents and guardians are strictly prohibited from requesting a level change for their child. Final level changes are at the discretion of the Artistic Director.

### *Class Offerings/Curriculum*

**Ballet:** This course is designed to introduce students to both classical and neo-classical techniques, while laying the foundation for other genres of dance. All ballet courses will provide a special emphasis on body alignment and ballet terminology.

**Modern:** Based on the techniques developed by Lester Horton, this class focuses on creating a strong, versatile dancer. Emphasis is on dynamic, full-body movements that expand the body's range of motion, coordination, and expressive capabilities.

**Jazz:** This course will allow students to explore nuances and terminology within the Jazz aesthetic. Through high energy exercises, syncopated rhythms and stylized phrases, students will continue to refine technical aspects of their dancing and begin deconstructing their performance qualities. This course will also infuse aerobics and cardio exercises to build stamina and condition the body for more rigorous and demanding movements.

**HipHop:** In this course we strive to inspire well-rounded Hip Hop dancers and focus on techniques such as Popping, Waacking, Waving, Grooves, Locking, Tricks and Vogueing.

**Tap:** This course is designed to introduce our students to basic rhythms, preparatory steps and sequencing with special attention to clean technique. They focus on musicality, phrasing, and terminology while building strength and having fun! Tap dancing will teach students rhythm and musicality, how to listen to the music you're dancing to, and will make students a more well-rounded dancer.

**Acrobatics:** This course integrates acrobatic elements with dance, emphasizing flexibility, strength, and coordination. Suitable for dancers looking to incorporate gymnastics into their routines.

**African:** A vibrant and powerful class exploring traditional African movement, rhythms, and cultural expression. All levels and backgrounds are welcome.

**Praise:** A spiritually uplifting class combining expressive movement with faith-based music. Welcoming youth and adults of all levels to dance with purpose.

At Passion for the Arts Dance Center, we specialize in **combo classes** because they give dancers a **well-rounded foundation in multiple styles** — helping them grow faster, gain versatility, and discover what they truly love.
