Rededication Service

**Oct. 21, 2018
11:00 a.m. Service**

Come discover which principle of Truth will be revealed as your gift from Spirit to you this year. Our unique rededication service is an opportunity for you to experience a sense of renewal in this special service of prayer and meditation. Reflection upon the heart stones and their meanings are powerful and revitalizing in their ability to remind us of Spirit's presence in our daily lives. There will be one that is meant just for you as your blessing for the coming year.

THE TRUTH IS...

“...’Do not I fill heaven and earth,’ saith the Lord”? Jer. 23: 24

What we conceive happened in each of our experiences of the world builds up our personal belief system. That is our usual operating process. Therefore, our perception of the world is largely built upon the beliefs we have built up. If our experiences are interpreted with the underlying conception of reality being that evil has power over our lives, we will build beliefs as such and therefore most of our future

experiences will support and enforce that idea. This happens because our beliefs inform our perceptions which affects our attitudes. This in turn develops our behaviors and ultimately our habits, which causes most of our experiences. How we approach life, relationships and even worship of Spirit is therefore built upon our beliefs. What is vital to understand is that we as a race of human beings have also built up beliefs and one of them is that evil has power not only over our lives, but in and of itself. We have built the idea of evil into its own entity with a power virtually equal to God or greater in many respects. These underlying race concepts of life, God, evil, reside within our individual unconscious mind.

We are capable of changing the dynamic of how our lives work. As our creative process continues, we form beliefs regarding our own experiences of the world individually, and over time also forming beliefs within the race consciousness. This whole premise would completely change the dynamic of how we as a people, perceive our experiences and our attitudes and behaviors and habits, etc. Hopefully, you get the idea I am trying to convey.

Can you now imagine what would happen if we built our belief system, as a race of beings, with the underlying conception of reality being that we are one with Spirit, made wholly of love which has no place for evil to exist and thus absolutely no power over our lives? Let me expound further.

Have you ever considered your life to be powerless, one of little value or effect upon the world? Allow me to offer the possibility of a different reality of our individual lives. With everything we think, do and say, we develop the underlying ideas of what reality consists of within ourselves and the human race. If we change our personal lives we will change the whole human race. The more of us that can hold to the reality of our lives being One with Spirit, the more this develops within our race consciousness. Ultimately, we create heaven on earth as Jesus Christ called us to do.

Think on this....blessings in Christ, Rev. Paula

Wed. Night Book Study Begins Sept. 19 - 6:30 p.m.

We are studying a new book by Stephen Davis, *“Butterflies are Free to Fly”* which explores how recent quantum physics experiments are radically changing our understanding of life, our reality, and our spirituality - and giving us a new model for the way our universe works and the practical steps to take toward true joy and excitement and peace of mind. Some of us come earlier at 6 p.m. to meditate or socialize .
