

N O T E

IN the following pages are recorded all the entries from the United States and Canada in the four Golden Books of the Jewish National Fund, covering the period from January, 1904 to December 31, 1931.

The entries are arranged alphabetically by volumes, the number at the end of each entry indicating the volume number of the Golden Book (Nos. I, II, III, and IV), and the serial number of the inscription in each volume.

The wording of each inscription is reproduced exactly as it appears on the pages of the Golden Books.

In the early days of the National Fund, when its head offices were at Cologne, Germany, the entries were frequently made in German. These entries are here reproduced exactly as they were made. Upon the transference of the head offices of the Fund to Jerusalem, the inscriptions were recorded without translation in the languages they were sent in to the National Fund Office from the various countries.
