

Connect for Food (CFF)

Our purpose is to identify and create opportunities for people and businesses with interest in our food economy. We believe everyone connects with food and has ideas and experiences to share and contribute to a strong food system.

Connect For Food is reaching out with several approaches, including virtual and in-person events, to provide an opportunity for people and businesses with a stake in the local food system to offer input toward developing our LOCAL FOOD COMMUNITY. Your input will support economic development and improve rural community vitality through local food.

The Connect For Food Community

◀ If you produce, process, distribute, consume or educate, we are all connected to food!

We Need You!

Please get involved by letting us know how we can include you in this important project!
(See below for contact information)

CONNECT FOR FOOD

"A thriving and diverse local food system through advocacy and a community driven approach"
