Cat Security™

by Cap City Muffler

Toyota Prius Generation 4 2016 -2020

Thank you for your purchase. With the installation of this Cat Security™ plate, we hope that you will help prevent any further catalytic converter theft. The included hardware kit will help further secure your catalytic converter and deter thieves.

Package Contents:

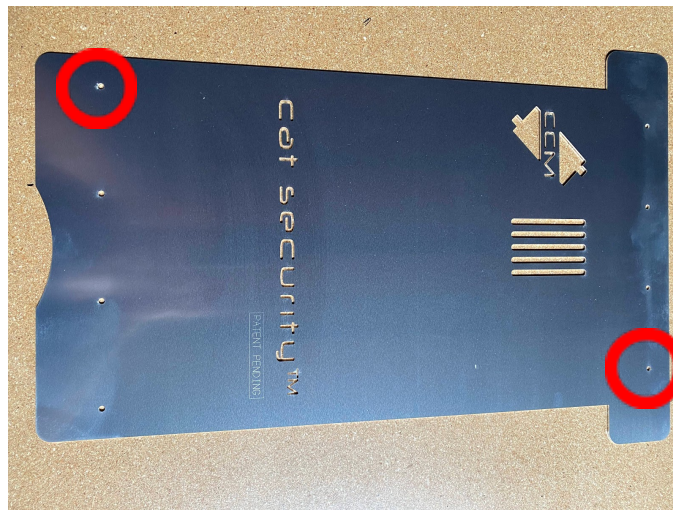

- (1) Aluminum Security Plate
- (4) 3/16" Rivets
- (4) Security Screws
- (2) Self-Tapping Screws

Professional Installation Recommended

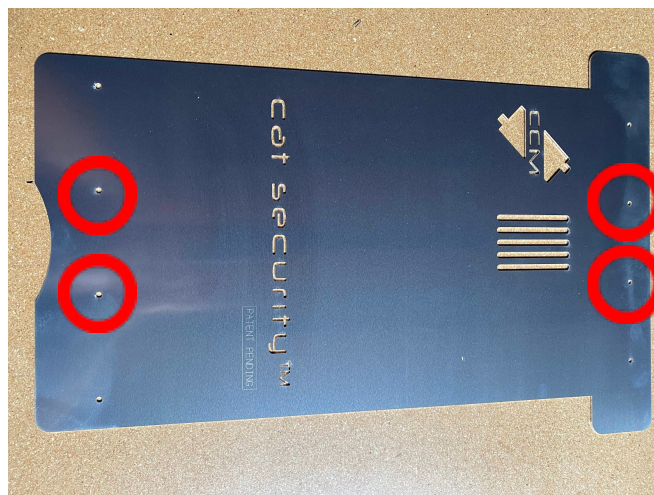

Cat Daddy Pro Tip Check to see if you have the required aluminum mounting bars. You may have zero, one, two, or three. You will need a minimum of two support braces to complete this installation. If you have no support braces please order them from Toyota using part number 57533-47030

Toyota Prius Cat Security™ Install Instructions (Gen 4)

Step 1 - Ensure there are two support bars in the forward-most positions. Hold the Cat Security™ Shield up and install two self-tapping screws in opposing corners as shown on the picture.

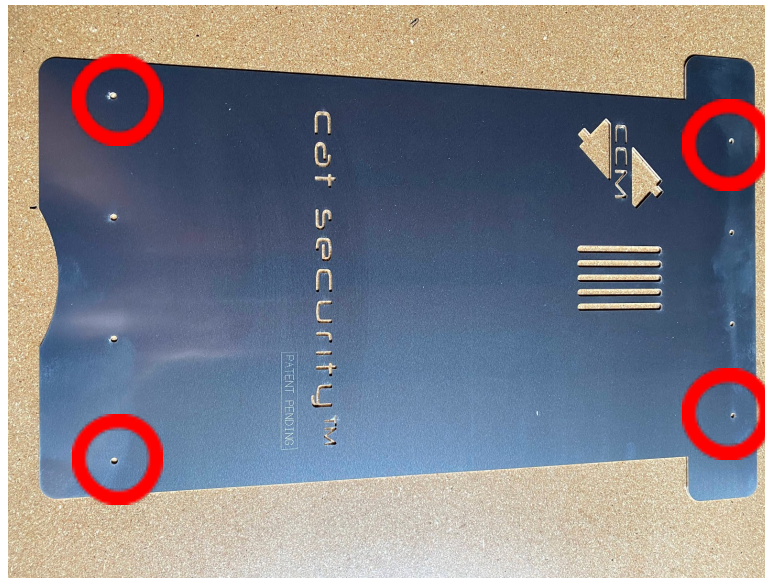

Step 2 - Once the Cat Security™ shield is stable, proceed to drill out the inner holes for the rivets. Install the rivets using the 1/2" rivet gun.

Professional Installation Recommended

Step 3 - Install the security screws in the corners of the Cat Security™ shield. You can use the self-tapping screws to make the holes for the security screws, if you do not have a 5/32" drill bit. Install security screws and you are done.

Last Step: Install the Cat Security™ stickers on the two rear windows and back window of your Prius to let people know your car is protected.
