LIVE WEBINAR TRAINING

FINGERPRINT TESTIMONY - THE DIFFICULT QUESTIONS

Limited availability, enroll early!

Check our website for current session dates

"Uniqueness hasn't been proven, right? What exactly is an identification? How much is enough?"

"How do we know you're right, haven't examiners been wrong? Why don't your SOPs follow standards?"

This webinar aims to address some of the "nightmare" questions friction ridge examiners worry about and discuss options for how to handle them. We'll go over how much is enough, how a conclusion is reached, levels of documentation, error rates, standards & SOPs, and more. The goal is to provide attendees with a broader understanding of where these questions come from and why the industry recommends certain answers, so attendees don't feel they are regurgitating what they were told to say.
