

# Atwell Hill & Pease News In Plymouth, N.H., *Record*, 1887-1899

*Compiled by Art Pease, 2023*

I have included here general Atwell Hill news, as well as that relating to the Pease, Randall & Sherburn families in Wentworth and East Orford. There are also East Orford references which relate to Atwell Hill, showing the close connections between these two small sections of their respective towns.

*The few items from the Warren News are identified; otherwise these are from the Record.*

1/22/1887 S. Wentworth

- A.A. Brown has about 20 men and 40 oxen employed in lumbering from near Rocky Pond to his steam mill.
- Walter Reed of Dorchester has hauled the largest load of spruce lumber to the mill of W.R. Park, Jr., ever known to be hauled in here. His load contained 225 feet. Who can beat that with six oxen? There are 11 teams logging to the mill. [From Steve Rand, 11/22: "Alson Landon Brown was my Great-Great Grandfather. He had set up the mill below the lower bakers pond. "Browns Mill". Died in 1892. Not sure who A.A. was"]

7/2/1887 Wentworth

•Rev. Joel A. Wright went to Concord, Vt., last week, where he is to remain about three weeks. He is canvassing for the book entitled "The Road To Heaven," and is having good success. *[This must be the time that Grampa Howard bought the Atwell Hill farm! See the excerpts from Ma's 'Growing Up On Atwell Hill.'* "Pa worked on farms as a young man and wanted to own one of his own. Therefore, when Joel Wright [an ordained minister from Wentworth] came to Concord and said that he had a farm to sell in Wentworth, Pa bought it without even going to look at it. . . . Ma came to Wentworth by train on March 12, 1889. Mr. Wright met her at the depot with a horse and sleigh and he walked a lot of the way home as there was so little snow. Pa came down with the first load of goods the first Tuesday in March [Town Meeting Day in Vermont, March 5] with a horse and hayrack."

3/23/1889     Wentworth

- There was a good attendance at the entertainment by the East Orford band at Church hall last Saturday evening.

3/23/1889     W. Rumney

•Our band concert turned into a surprise party last Saturday evening. Early in the evening a party comprising nearly twenty ladies and gentlemen entered the hall. They were mostly strangers. It was soon learned that the party was from Orford and among them was the East Orford cornet band, G.H. Stevens, Haverhill, leader. Later it was discovered that they had their instruments with them. After a little moral suasion and they had got over their bashfulness somewhat, they were induced to bring forward their instruments and our band having vacated the platform, they were invited to occupy it, which they did, and rendered several selections with credit to themselves that were appreciated by all present, as they were heartily cheered. Of course their admittance fee to the hall was refunded. These promenade concerts given by the Rumney band are too well known to need any commendation from me.

True, who is seventy-three years of age, has during the past winter threshed all his grain with the flail and is now at work on his large wood pile with an ardor that would do credit to an younger man. Dea. True has been a resident of the Atwell Hill district since five years of age and is still active in the affairs of life. He is a member of the temperance union society and an earnest worker in the cause. *[Aunt Susan mentions a Mrs. True several times in her 1893 diary – I bet this man's wife or widow. He is shown on the 1892 map as just east of Leonard Howard's place on Atwell Hill.]*

*Compiled by Art Pease, 2023*

I have included here general Atwell Hill news, as well as that relating to the Pease, Randall & Sherburn families in Wentworth and East Orford. The Pease, Randall & Sherburn families all moved from Ellsworth, N.H., to the Ellsworth Hill area of Wentworth c.1860. There are also East Orford references which relate to Atwell Hill, showing the close connections between these two small sections of their respective towns.

*The few items from the Warren News are identified; otherwise these are from the Record.*

•The Fourth of July celebration was a success, everything even to the weather being favorable. A bountiful table was spread in the grove and over 100 availed themselves of its bounties. Two hours of the afternoon were devoted to exercises in the hall by the Sabbath schools, which passed off grandly. The East Orford exercises were praiseworthy and showed the arduous labors of their teacher were not in vain. Closing remarks by Elder H.P. Adams.

Although in poor health, yet he was not looked upon as one who might thus be summoned. He was born in East Orford and was 45 years of age. - Alanson Haines

The following in relation to a former New Hampshire man is taken from the Laramie, Wyoming, Daily Republican of Feb. 6. Mr. Haines was, until his removal to the West, a resident of Wentworth, also in his younger days, of Orford.

"Alanson Haines, without doubt the oldest man in Albany county and among the eldest in the state, died at his home this afternoon. He had been confined to his home for two weeks and for the past week to bed. The end came peacefully, Mr. Haines having been in a state of coma for several hours preceding the final dissolution. Mr. Haines was born in New Hampshire June 21, 1812, and came to Laramie with his wife and son, Alanson L. Haines, in 1882, he having been a resident of the city since then. His wife, Hannah T. Haines, died November 28, 1882, shortly after coming to this city. His son, Alanson, died Feb. 16, 1887, and his son's wife, Harriet P. Haines, died June 4, 1904. They are all buried in the cemetery here. Mr. Haines was a man with the keenest sense of honor and the strictest integrity; remarkable for

these as well as well as for his wonderful vitality. He has been a faithful, honorable citizen, at all times ready to do the best he knew how. Mr. Haines is perhaps the last of the Haines family. He had brothers and sisters, but they have all gone ahead of him, leaving him alone of a not very large family. He belonged to no church or secret society, but his Bible was his constant companion, its well thumbed pages indicating the trust he placed in its sacred words."

*Note: This is the man from whom great-grandfather Luther Perry Sherburn bought the Sherburn\Pease farm in East Orford in 1966. I think he lived in Wentworth after that until he moved to Wyoming.*

- Old and young made happy, horses made to tremble and horrified at the new mode of conveyance. Wednesday Aug. 9th. was a red letter day for Atwell Hill. E.C. Chase, M.D., wife and youngest son Bernard, their eldest and his bride of Orford, climbed the Hill from Brown's mill as well as other steep hills with a Knox automobile lately purchased by the senior Dr., and run by the junior Dr. The honored guests, also Mr. and Mrs. Henry Chase partook a nicely served dinner at the home of Mrs. J.L. Ramsey who is a sister of Mrs. E.C. Chase. All their relatives were treated to a ride in the first auto ever on the hill. Widow Abby True, 81 years old who lives in the same room she has occupied since the age of 15 when married to E.G. True, enjoyed a ride in the horseless vehicle. Atwell Hill is much indebted to Dr. E.C. Chase for her present luxuries, as he put in the first private telephone between Henry Chase and son, also the peoples' line from Fairlee to Wentworth was largely due to his instrumentality connecting us to the outside world. At an early hour in the afternoon the honored guests returned to East Orford to witness a ball game and hill people returned to their game of haying.

*Note: I wonder if there are photos of Dr. Chase and his Knox. I bet the ball game took place at Camp Moosilauke, as that is the only place I can think of with a ball field, then or now.*

Ernest W. Howard

Our hearts were saddened and eyes filled with tears on Wednesday evening, July 27, upon hearing the shocking news of the terrible and fatal drowning accident of one of our nicest and most esteemed young men, Ernest W. Howard, while bathing with other companions in Baker's river not far from West Rumney village, when it is supposed he was taken with cramps and fell in about four feet of water. The body was quickly recovered, but life was beyond medical aid which was summoned at once from both this town and Rumney. The sad affair has cast a gloom over every community where Ernest W. Howard was known. He was a favorite among those of his age, made so by the pleasant and congenial way in which he greeted his friends. He was bright, active and happy, never speaking ill of anyone, always having a kind word and pleasant smile for all. He was 20 years of age, and a son of George and Flora Howard of this town, who feel this shock most keenly. Besides them he leaves two brothers, two small sisters and hosts of friends to mourn the loss. The deceased was a member of Wentworth grange, and was assistant steward at the time of his death. The funeral was held at his late home on Atwell Hill, Saturday, and the remains taken to Warren for burial. Rev. C.W. Nelson spoke words of comfort to the sorrowing friends. The floral tributes were beautiful and as follows: White roses, Mrs. Etta Downing and family; pansy mound, Mertie Huckins; pillow white roses with letters P. of H. , from Wentworth grange; trail of 20 white carnations, from 16 friends; trail sweet peas, pinks and ferns, Mildred and Gladys Rollins; wreath roses, red and white geraniums, Mrs. Jesse Gordon; pond lilies, John O. Rollins; cutflowers, Mrs. White, Mrs. Heaton, Mrs. Sarah Burnham, Mrs. Johnson and others. Beautiful floral tributes, the home filled with sorrowing relatives and friends from far and near, speak more plainly than words, of the high esteem in which the deceased was held by all who knew him, and these words express the feelings of all.

# Atwell Hill & Pease News In Plymouth, N.H., *Record*, 1910-18

*Compiled by Art Pease, 2023*

I have included here general Atwell Hill news, as well as that relating to the Pease, Randall & Sherburn families in Wentworth and East Orford. The Pease, Randall & Sherburn families all moved from Ellsworth, N.H., to the Ellsworth Hill area of Wentworth c.1860. There are also East Orford references which relate to Atwell Hill, showing the close connections between these two small sections of their respective towns.

*The few items From the Warren News are identified; otherwise these are from the Record.*

*The comments highlighted in yellow are by Steve Rand of Plymouth, grandson of Alson Brown.*

**There are no microfilm copies of the Record from September 1918 until January 1926 but I will put any Warren News items here.**

- A pretty home wedding took place at the residence of Mr. and Mrs. E.F. Deshon at Alfred, Me., on Wednesday evening, November 9th, when their daughter, Elizabeth Adaline, was united in marriage with Mr. Elmer H. Pease of Wentworth, N.H. The parlor was prettily decorated with evergreen and autumn leaves. The bride was handsomely dressed in white and attended by her sister, Alice Deshon. Guy Pease, a brother of the groom, acted as best man. Rev. A.L. Struthers, pastor of the Congregational church at Alfred, Me., was the officiating clergyman. Many useful and beautiful gifts were received by the couple, showing the esteem with which they were held by their many friends and relatives. Refreshments were served to about 45 guests. Mr. and Mrs. Pease left the following morning for Whitinsville, Mass., where they will reside for the present.

*I bet that my cousin Elizabeth Pease was named for her grandmother, as I think that Elmer was her grandfather. I also wonder if there was any link between the Pease's going to live in Whitinsville and Issac Crosby having recently moved there. Elmer would certainly have known the Crosby family, who lived in Wentworth for many years.*

In part the article said: Mrs. Sarah A. Pease, past master of Warren, N.H., Grange installed the officers of Uxbridge Grange, Tuesday night, in Odd Fellows' hall. The installation was one of unusual occurrence, the installing officer being mother of the master installed, Leon B. Pease. The occurrence was undoubtedly unique in the history of the order, at least the fact of mother and son both being elected to the office of master the same year, in different states and each Grange having the same number. Both Uxbridge and Warren Granges are designated in their respective states as "No. 200." The work was very nicely done and was witnessed by fifty-three members of Uxbridge Grange, forty-nine from Northbridge Grange and four from other Granges. At the close of ceremonies Tuesday night, Mrs. Pease in behalf of Uxbridge Grange, presented the retiring master, Wade B. Phoenix, a past master's pin. The custom of presenting such an emblem to the retiring master has been in vogue in Uxbridge Grange for several years. Upon taking his station, Mr. Pease called up Jacob Williams, master of Northbridge Grange, and that gentleman made a few remarks as did also Charles Sissons of the same Grange. At the close of the meeting refreshments were served.

Mrs. Pease has been a great worker for the order for many years. Besides being a member of Warren Grange she belongs to Grafton County Pomona and the New Hampshire State Grange, in all of which she has served in various capacities. In fact, the new master of Uxbridge Grange comes from a typical grange family. All the members of the family being in the Grange and all more or less active in the work. Mr. Pease was born in Meredith, N.H., and when three years of age went with his parents to Wentworth, where they still reside. There he received his education in the public schools and later took an agricultural course in New Hampshire college. he came to Whitinsville two or three years ago and was employed at Castle Hill farm until last spring when he went to work in the box shop of the Whiting Machine Works. He is a member of Worcester County Pomona and of the Massachusetts State Grange and of other fraternal societies, including Whitinsville lodge, I.O.O.F.. and Social Rebekah lodge of that place. He is a member of Whitinsville M.E. Church and active in the work of the societies connected with it, including the Epworth League and Men's Class.

Birthday Party - Pleasant Affair at the Home of Horace Pease on Ellsworth Hill

- Although May 16 proved to be a somewhat gloomy day outside the walls of the homestead of Mr. and Mrs. Horace Pease, Trout Brook Farm, on Ellsworth Hill, all was bright and cheery within; for it was that day that their only daughter, Maud Alma, celebrated the 20th anniversary of her birth. Friends and relatives from Vermont, Maine and Woodsville, N.H., were present to enjoy the principal feature of the occasion, the birthday lunch, which proved most successful. The table was tastefully decorated with a mat of apple blossoms in the center, from which twenty colored candles illumined; May baskets filled with apple blossoms, and the birthday cake frosted in white with name and dates in brown, surrounded by a wreath of apple blossoms. Crepe paper was skillfully used for decorations and for trimming the baskets. The young hostess appeared in a draped gown of flowered silk, wearing a ring the setting being an emerald surrounded by six tiny pearls, and a clover pin of Ebelonna shell pearl. At midnight a plate of silver money and a bon-bon dish of candy apples, twenty pieces of each, proved a pleasant find. That, and other pretty and useful gifts, and hearty wishes for twenty years more to follow, filled the day with lasting memories.

\*A Communication

I wish to thank the voters of the town of Wentworth for the loyal and unsolicited expression of vote given me at the recent town meeting. It has been the direct aim of the writer to work along those lines that eventually would bring good results for the town in general and open an avenue to greater prosperity.

We have got to have a foundation first, and the dawn of what might have been a new day for the town has been obscured by the cloud of bribery.

It is a fact that we are subject to unequal taxation, a part of which might be overcome at the time of assessment by proper explanation and honesty on the part of the tax payers. The majority of those who reside within the village limits intend to rule and they expect all the modern conveniences of a precinct village and they expect the farmer or his wife to hand over their pocket book free-gratis, thoughtlessly regarding surrounding circumstances.

The greater portion of the taxes comes from the out-lying districts and they are the ones who have to endure the unwise judgment of those who handle the contents of the treasury by receiving a recompense in poor roads, an inattention to schools and no doubt but what they are cartooned in their imagery as the hobos of the town.

A failure to recognize religious principles properly and bribery at the polls, courted with profanity and intemperance, have nearly brought the town to its finish.

It is due time that the leaf was turned for our destiny is shaped by our standards.

We should preform rather than promise, remembering that accomplishment builds reputation and confidence is merited by the faithful discharge of our obligation, that we should emulate rather than envy those who achieve, for success is the outcome of persistent effort, that we should condone rather than condemn, for ambitions are often crushed by circumstances and character is a greater asset than a bank account.

Your obedient servant,

Sarah A. Pease

*I wonder what was going on to prompt her 'Communication' below and what, if anything, came of it. Looking at the 1916 Wentworth Town Report, John P. Currier is listed as Tax Collector for 1911-12 and Frank E. Webster for 1914-15, so Sarah apparently only served for one year. I bet she was not re-elected in 1914 and the first paragraph of the "Communication" below is thanking those who did vote for her.*

*The only other thing I can see from Town Reports is that in 1914, there are more than thirty-five tax abatements for the years 1909-1913, with most from 1911 and 1912. I don't have the reports from 1905-13 but in the ones immediately following 1914, there are only one or two abatements per year.*

*My bet is that there was some controversy in town relating to collection of taxes, and that Sarah Pease was elected to 'straighten things out'. Perhaps she did too much 'straightening' and was therefore not re-elected. Could be a juicy little story here if we had more info! ;-0*

***Talking with Howard [@ Pease gathering @ Remington's Restaurant on 1\30\15]***

- In 1920\21, Dad had Abbie Pease, wife of Henry H., as a teacher and Dad had the job of starting the fire in the schoolroom every morning. The problem was, just when it got going well and heating the whole room [Dad sat in the back, farthest from the stove], the teacher would turn the damper so as to cut down the heat. So, at some point, Dad took the damper out, so she couldn't turn down the heat. [It seems that if the whole damper was just taken out, it would be too obvious. Perhaps he took apart the stovepipe, took the actual damper off the rod that held it, and then replaced the rod in the pipe. That way, it would not be obvious that the damper flapper was not being turned to shut off the heat.] It seems to me that any woman of that era would have soon realized that something was wrong but perhaps Dad had a few warm days! A good story, nevertheless, and I'm sticking to it. ;-)*

- The directors of Pemigewasset property established a boy's camp at Baker's pond eleven years ago. The enterprise was not designed to entertain the public, but despite this fact more than seventy-five guests were accommodated this season because of their inability to secure lodgings elsewhere. This item alone shows the great demand for more commodious public houses in Wentworth. The largest hotel in town closed by reason of the illness of the proprietor. It is hoped that Mrs. Burnham will soon regain her usual health and the long talked of improvements be installed in the Burnham House, which has been under her popular management for nearly a quarter of a century. When these contemplated enlargements are completed The Queen of the Valley will have ample accommodation for summer visitors and the traveling public. The directors of the camp have made large additions and improvements in their property the present season, thereby making possible the most prosperous summer in their history. As usual the directors have given much encouragement and sympathy to the enterprise of the town. Dr. Reed, assisted by a quartet of fine male voices, occasionally furnished music Sunday morning in the church, which was much appreciated. On the evening of August 22, the camp

directors, assisted by a bunch of up-to-date boys, gave a high-class concert in the town hall to more than 200 pleased listeners. The concert netted a sizeable sum to the Ladies' Aid and special thanks were extended to the artists.

VERNON McINTIRE

It was with sad hearts that the people of Wentworth learned of the passing away at his home of 'Vern' McIntire after a short illness from pneumonia. He was born in Jefferson in 1885 and has been a railroad man for about 12 years. He was married Oct. 28, 1911, to Edna Grace Pease, daughter of Mr. and Mrs. Francis Pease of East Orford, and has since made his home in Wentworth. He leaves to mourn their loss a wife and two children, Roger six years and Ruth four years; a brother, Erwin McIntire of Concord; a step-father, Roswell Yates; a half sister and brother, Erma and Earnest Yates of Rumney, besides many friends. Funeral services were held at his late home Tuesday morning Oct. 8, conducted by Rev. F.C. Bradeen who spoke comforting words. Singing of two sweet selections by Mrs. Elmer Brown and Mrs. Ralph Gove. Burial was at East Orford as he expressed the wish not long ago to be taken there for his last resting place. And so they took him back to the old home he loved so well where he now lies at rest waiting for the dear ones to join him. 'Gathering home one by one.' In the passing of 'Vern' McIntire Wentworth has lost a kind citizen and true friend. Ernest Nichols in charge.

## CARD OF THANKS

We sincerely thank all who so kindly assisted us during the illness and passing away of our dear one; and especially the village friends for their kind thought which came like a sunbeam to brighten our saddened home. Also for the beautiful flowers and letters of sympathy. All this loving kindness which surrounded us at this sad time will long remain a cherished memory.

•Saturday forenoon Dr. Fauver was coming down cemetery hill when the rear axle of his Ford car broke and the machine was beyond human control owing to the brakes not holding with the broken axle. There were six people in the machine at the time of the accident and those who saw it claim the outfit was going at terrific speed, but owing to the Doctor's presence of mind it was directed straight down the hill and across the square at the foot of the hill across the main road and into a field in the rear of Harry Whitcher's residence, side-swiping a tree which somewhat checked the velocity of the car which later stopped just over the brow of a hill, standing at forty-five degrees on the front end quite badly wrecked. The six passengers were thrown out as the car stood on end, but miraculously escaped serious injury aside from a general shaking up. One lady was slightly cut on her breast by glass from the wind shield and the Doctor had to carry his left arm in a sling for a few days. The wrecked machine was put on skids and towed to Rowell's garage where it is undergoing repairs.

- Friends of Glenn Pease of East Orford were sorry to hear of the injury to his shoulder received while working in the woods last week. *[From a talk with Gerald in 2017: Once when Dad was logging up on the side of Cube and yarding logs down to a skidway in what was then Goodwin's pasture [next farm west], he got caught by a log he was unloading and pinned to the ground. The landing slanted a little toward the skidway as one drew in and apparently Dad didn't get out of the way fast enough as he loosened the chain around the logs on the scoot. Of course the horses were still hooked on the scoot and if they had moved even a foot or two, could well have crushed him. Dad said he could hear the kids playing down at the schoolhouse. Dad shouted for help and Mrs. Bert Clark [Pete Thomson's place] said she heard shouting but didn't realize what was happening. Dad also put one of his gloves under his dog's collar, hoping the dog would go home but apparently that didn't work. Alphonse Fillian was trucking the logs and when he got back to get another load, saw Dad. Dad said he never saw anyone get out of a truck and grab a cantdog so fast. [From Harry, 12/27/22: "Here's a little more about Grandpa's logging*

*accident. I heard Grammy talk about this logging accident several times. She said after they got Grandpa home, they sent for the Doctor. The Doctor determined that his shoulder was out of joint. He gave Grandpa laudanum and had him lie down. After he was out, the Doctor put his foot under Grandpa's armpit and grabbed his wrist and yanked his shoulder back into joint. Grammy said all the time Grandpa was out from the laudanum he kept saying whoa to the horses. He thought he was still pinned under the log. It was probably a good thing he was young and strong then, only 25 years old." ]*

Would have 20-25 yrs after 38 that I remember helping him sugar. I remember all the trees along the road, which is most of what he tapped, as being pretty good size. I moved where I live now 44 yrs ago There were 2 maples, one either side of what I made my driveway. They are not even now as big as I remember those on Atwell Hill. If you remember the house and barn were on the easterly edge of his property. The property was basically the open field area with some down into the woods on the back side. The sugar house, it's gone now, was on the opposite side of the open area against the tree line on the westerly side probably a 1/3 or 1/2 the distance to the woods. Road to it ran along the edge of the woods on that side. He didn't have any maples down in that area or behind the property. Perhaps there were and those were the ones damaged?]*

From Tim Chase, 6/17/23: "Thanks Art, as usual for the news! I remember Mom and Dad talking about their first years out here in East Orford. My sister, Shirley, was born on Oct 21, 1942, and they moved onto the farm here on that date you mentioned. I remember them saying how the floor in the house had cracks in it that allowed them a view into the basement where they could see frogs swimming around and hear them croaking! Mom said the wind used to howl through the house until she thought it was going to blow it off the foundation! At some point, Dad hired on to work in a lumber camp over on Mt. Cardigan for the whole winter, and of course, that meant that Mom and Shirley were left alone at the house to tend fires and whatever else needed to be done. Those were hard days!!]

- Wilfred Tatham is another Wentworth boy who has joined the forces of Uncle Sam. *[From David Tatham, 7/15/23: The last entry is wrong, my Dad did not join the military. This was written when he was going for his induction physical but he didn't pass it. But I expect that is why it says my Grandmother Tatham was going to live with her sister because they were expecting he would be gone. He did later work at the navy yard in San Francisco.*

*My parents [Wilfred married Ruth Keneson] were married a few days after she graduated high school in 1944. I think at that time my Dad was working at Scott & Williams in Lakeport. Have seen a newspaper article saying they would live in Lakeport. Later that year they, along with Bill & Nita (Juanita) Randell traveled to San Francisco for Dad and Bill to work at Hunters Point Navy Yard there. Nita was my Dads first cousin. Randell children, Gary and Joan, with them. Gary was about 3 yrs older than me and Joan about 1 yr older, it's possible she wasn't born yet but would have been very little if she was. I was born there Aug 31, 1945 between the cease fire (Aug 15) and official signing of the surrender Sept 2. They would have returned almost immediately but doctors didn't want them traveling cross country with me only a few days old so waited until I was 6 weeks.*

*About San Francisco, Westley Muzzey from Wentworth was in the navy. At some point his ship was in to Hunters Point for repairs. Somehow, through letters from home I guess, Dad learned Westley was there and he looked him up. I didn't know Westley until I started working at Thermal Dynamics in 1979, he was there for several years until he retired. He would often tell me about that Dad was the only person from Wentworth that he saw during all the time he was in the navy.*

*Dad's eyes were fine. I understood they rejected him because of nerves. Don't really understand it, never seemed especially nervous to me. I've know of people you couldn't walk up behind the without speaking before you got close or they would jump and likely swing at you before they even realized what they were doing. He wasn't like that. Anyway it was a good thing, he wouldn't have been there when my Grandmother Tatham's house was washed away later in 1942. And who knows, maybe he wouldn't have survived the war and I wouldn't have been born. Looking forward to you coming across the newspaper articles about that flooding.”]*

Bill worked as an electrician, my Dad a carpenter and sometimes as electricians helper. You might wonder why a carpenter with the ships being all metal but there was need among other things for wood staging while rebuilding the damaged ships. Parents traveled in 37 Chevy pickup, don't know what Randell's drove. About 6 weeks after the end of the war, there being no more work at the navy yard, they returned home with the Chevy pickup and with me and a dog. My Mom said it was a bit of a tight fit with baby and dog in that very small pickup cab. Not like today's trucks. I think the dog mostly lay on the floor. Actually they acquired the dog first, probably not long after they got there to keep my Mom company while Dad was at work. I came along right at the end, Aug 31, war was officially over Sept 2, 1945. Doctors recommended they not travel across country until I was 6 weeks thus the delay.*

*I think I mentioned before that Westley Muzzey from Wentworth was on a ship that came into the yard for repairs. Westley, who worked where I do for several years, often commented that Dad was the only person from Wentworth he saw during his time in the Navy. Dad, apparently through a letter from home, learned Westley's ship would be there and he looked him up.]*

wonder if Ray was there in time to see it. He was a truck driver. One of those 'Damn, wish I had known so I could ask questions' situations. Ray was my cousin and lived with Ma for several years in the 1990's after Dad died and I saw him quite a bit – could have asked lots of questions! ! From David Tatham, 10/8/23: "Fighting lasted on Iwo Jima about 5 weeks but sections near the landing zones were cleared first then the fighting moved inland. It was my understanding that Ray arrived on Iwo Jima a day or two after the active fighting was over in the section where he was but there was still the occasional sniper still around. He never mentioned seeing the flag. Like most combat vets he didn't talk about it much. Probably would have replied to direct questions though. I suspect for the GI on the ground getting hot chow and some rest was much more important than sight-seeing. Also I don't suppose they were allowed to wander around sighting. Would only have been if his duty took him to where he might have seen it." ]

John was born December 19, 1946 so she was probably pretty round with baby visiting grandma and grandpa on November 7, 1946. believe when John, George and Terri attended Orford they lived in the camp (below Camp Pemi) but then moved down to grandma and grandpa Brown's house on the flat below Banty's house. I would have been about 5 I think when we moved so they would have been about 17, 16 and 14. I was the baby so they were long gone before I can remember these details. I was definitely an OOPS baby but sooooo spoiled. With three older siblings I was very advanced in school and Banty called me precocious. I sure loved grandma and grandpa's house though and have wonderful memories of walking up to see Banty. John passed away after a brave fight with prostate cancer about three years ago and his wife Sandy passed away last year from breast cancer. All my siblings and my parents have now passed leaving me to figure out all this history you keep sharing with me.]*
