Good morning, Noah.  
It appears that the numbers are off on the budget that Amber has. We will create a packet with our current budget and expenditures and I will send it to you.

We can also set up a meeting with James & Cathy who can answer questions.

Tue, Jun 6 at 5:21 PM

Good afternoon, Noah.  
I am emailing you a packet that Cathy had put together for you regarding the library finances. I will include her and James (our treasurer) on the email. Would you like me to include Amber?

Good morning, Noah. Cathy had a suggestion for the programming space in the library plan. Could we have some type of storage space in there? Cabinets or a small closet for supplies?

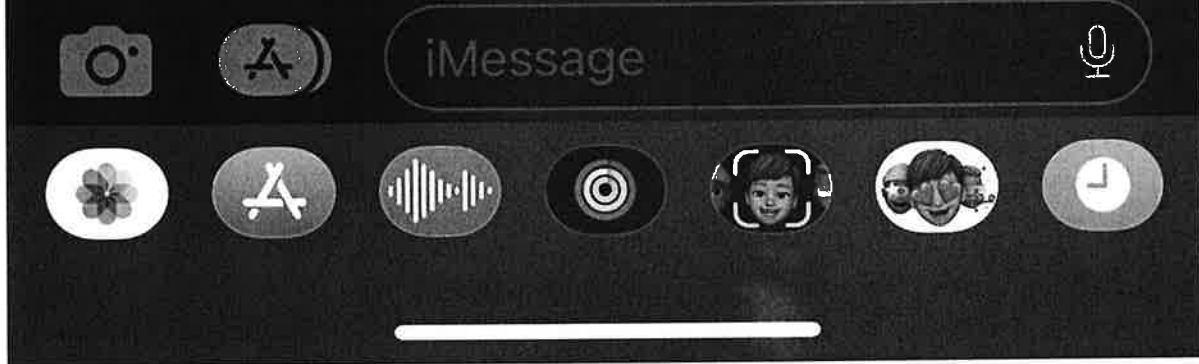

Fri, Apr 14 at 8:29 PM

Good evening. I won't be at the library meeting Thursday - I have an EDC meeting at the same time

Okay, thank you for letting me know. Is there anything city

related that you want on the agenda? Remember, I won't be there either.

Right now, I can't think of

From Cathy:

I measured the length of the individual shelf then how many shelves of that size.

From Cathy:

I guess overall length. Each shelf is usually 35" then I multiplied 35

is usually 35 then I multiplied 35  
by the number of sections/  
shelves. Like six sections of 35"  
shelves,  $6 \times 35 / 12$

Thanks

Hope that was what you needed.  
Is he getting close?

Good afternoon  
From the architect:  
Got the measurements, thanks.

I just need to know if they  
measured like the green or  
measured like the red. (See  
image below)

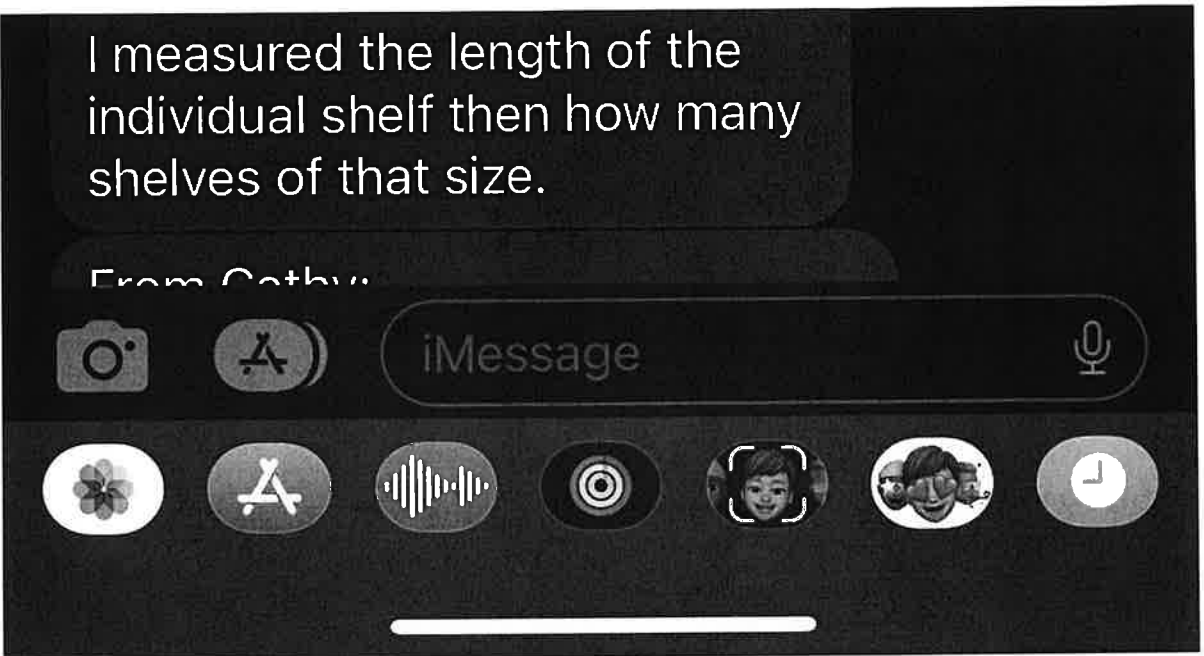

The measurements feel like they  
counted every shelf. (Which is  
great if true).

Online:

Quickbooks online.  
Give me a little time and I'll confirm the process with Cathy.

From Cathy:

Yes. Employees fill out time sheets with their hours for a two week period. There is an excel

spreadsheet set up where I just put in those hours and it calculates SS and Med taxes then gives me a paycheck amount. I write them out, they need to be co-signed if over \$200. The spreadsheet now gets sent quarterly to the accountant to do the payroll taxes.

What is the name of your group that came to the library yesterday? Is it okay if the library shares a picture of the group on social media?

Hi Noah,  
We don't use Quick Books for payroll. Just to reconcile the books. Cathy will send me the version when she gets to the library.

The

Thanks  
What do you use for payroll?

A spreadsheet with formulas, I think Cathy said. 😐

Couple of questions  
In using the payroll spreadsheet, do you all then write checks to the employee and state and fees for taxes?  
What is that process?  
Is it quickbooks desktop or online?

Quickbooks online.  
Give me a little time and I'll confirm the process with Cathy.

Luis- can you call TXDOT and have them check the Left turn signal to Bailey Ranch? Apparently, it's not cycling through and people are running the light. Aledo ISD PD stopped to let us know.

Hey! Sorry to bug y'all.

The BRR & 1187 light is out.  
They're blinking red.

I don't mind putting in the report  
but didn't know if y'all might  
have a better contact at TxDOT
