

Neuropsychology Assessment Information

Hello, and welcome to my practice,

I look forward to working with you in the future. My assessment process starts with a consultation meeting, allowing us to discuss your concerns, assessment process, next steps, and what you hope to get from the evaluation. There is a charge of \$150 for the consultation meeting, deducted from the total assessment fee if you choose to proceed with testing. I will send you several forms before our initial consultation meeting, including the estimated costs, consent forms, and a brief referral questionnaire.

We can meet virtually or in person:

Virtual appointments involve audio and video technology to connect directly with Dr. Ambler at your convenience. Plan to take the virtual visit from a private space using a laptop or desktop computer with a strong internet connection. You may need to download WebEx or Zoom before the appointment.

In-person appointments: My office is downtown Los Altos near Draeger's Market (340 Second Street, Suite 8; Los Altos, California 94022). Free parking is located in the back of our building off Whitney Street. I will meet you in the lobby when you arrive.

The assessment cost depends on the referral concerns and what you are seeking. The typical cost of an assessment ranges from \$2550 (e.g., ADHD or Mood/Anxiety eval) to \$4350 (e.g., learning disability, autism, or other complex or dual diagnosis eval). The fee includes the consultation meeting, record review, assessment, written report, feedback session, and follow-up. The evaluation report outlines the assessment findings, strengths/weaknesses, diagnosis, recommendations, treatment options, school interventions/accommodations, and more.

Please note that I am an Out-of-Network provider. If you wish to seek reimbursement, you should contact your insurance company. Otherwise, please feel free to call or email with any questions.

Sincerely,

Christian Amber, Ph.D.
