

Neuropsychology Appointment Information

Hello and welcome to my practice,

Thank you for your interest in my services. I look forward to working with you in the future. I am a clinical neuropsychologist and licensed psychologist with a wide range of assessment and treatment expertise.

The assessment process starts with a consultation meeting, which allows us to meet, answer questions, discuss the assessment process, your concerns, and your unique needs. We can meet in-person or by virtual telehealth appointments in the comfort of your home.

Virtual telehealth appointments involve audio and video technology to connect directly to me at your convenience. Plan to take the virtual visit from a private space using a laptop or desktop computer with a strong internet connection. You may need to download WebEx or Zoom before our appointment.

In-person appointments are conducted at my office in downtown Los Altos, *340 Second Street, Suite 8; Los Altos, California 94022*. There is free parking located in the back off Whitney Street. You can wait in the lobby when you arrive.

Regarding costs, there is a charge of \$150 for the consultation meeting, which will be applied to the assessment costs. The typical cost of an assessment is \$4500.00. The fee includes the consultation meeting, record review, neuropsychological assessment, written report, feedback session, and other follow-up needs. The Neuropsychological Evaluation Report outlines the assessment findings, strengths/weaknesses, diagnosis, recommendations, treatment options, interventions, accommodations, and more.

Please note that I am an Out-of-Network provider. If you are going to seek reimbursement from your insurance, then it is recommended that you contact your insurance to understand better your out-of-network coverages. The *Estimated Cost Form* contains the CPT codes, number of units, tax ID, and testing location, which you will need to provide to your insurance company.

Please feel free to call or email me directly if you have any questions.

Sincerely,

Christian Amber, Ph.D.
