

## Neuropsychology Appointment Information

Hello and welcome to my practice,

I look forward to working with you in the future. NEAT is an interdisciplinary group of independent professionals with a wide range of neuropsychology, psychology, and treatment expertise. We can offer personalized attention and tailored services to meet our clients' unique needs because our small practice does not fit all.

My assessment process starts with a consultation meeting, which allows us to discuss your referral concerns, discuss the assessment process, and the next steps. There is a charge of \$150 for the consultation meeting, deducted from the total assessment fee if you choose to move forward with testing. I will send you several forms before our initial consultation meeting, including the estimated costs, consent forms, and a brief referral questionnaire.

We can meet by virtual telehealth or in-person:

**Virtual telehealth appointments** involve the use of audio and video technology to connect directly with Dr. Ambler at your convenience. Plan to take the virtual visit from a private space using a laptop or desktop computer with a strong internet connection. You may need to download WebEx or Zoom before the appointment. Please refer to *Healthcare from your home document* for guidance on setting up a WebEx account.

**In-person appointments:** My office is located in downtown Los Altos, *340 Second Street, Suite 8; Los Altos, California 94022*. Free parking is located in the back of Whitney Street. You can wait in the lobby when you arrive.

The typical cost of an assessment ranges from \$2250 to \$4350. The fee includes the consultation meeting, record review, neuropsychological assessment, written report, feedback session, and follow-up. The neuropsychological evaluation report outlines the assessment findings, strengths/weaknesses, diagnosis, recommendations, treatment options, interventions, school accommodations, and more.

Also, please note that I am an Out-of-Network provider. It is recommended that you contact your insurance company if you wish to seek reimbursement.

Please feel free to call or email me directly if you have any questions.

Sincerely,

Christian Amber, Ph.D.
