Candice Miles

Founding Partner

Candice Miles is a founding partner of Global Empowerment Solutions (GES), a firm dedicated to helping create wealth through entrepreneurship and economic development in cities and countries across the world. In her previous roles, she has worked as a director with national non-profit organizations helping to spearhead entrepreneurship programs dedicated to empowering women and minorities in the Washington DC metropolitan area.

Candice's successes include creating a dynamic Washington DC Women's Business Center program that provided counseling and training services using a 4"E" strategy that focuses on: Entrepreneurship, Engagement, Empowerment and Exposure. With an emphasis on the client's stage of business and the 4"E" strategy, clients were able to better understand the process of improving or starting their small business by using attainable steps to meet goals that include: creating business plans, obtaining capital infusions, hiring employees or becoming a federal government contractor. Additionally, the DC WBC is where she created and launched the Holiday Hustle Training and Shop, Sip & Celebrate Holiday Bazaar programs that GES continues to offer nationwide.

Under her leadership, in 2015 the DC WBC was recognized by the SBA's Washington Area Metropolitan District Office as a Center of Excellence and in 2017 by the District Government's Small Business Resource Center as an exceptional provider of service to small business owners in.

Candice has a Bachelor's of Science in Chemical Engineering from Howard University and a Master's of Science in Taxation from American University. She currently resides in Silver Spring, Maryland with her husband, Eric and their two children, Regan and Ryan.
