

It might feel different right now but
this is ok.

I will soon be going back to school and
can talk about my time at home with
my teacher and friends.

Staying at home social story

I go to school most days. At school I learn, see my teacher and my friends.

At home I can still learn and have fun.

I might feel sad or scared and I might miss my teacher and friends. This is ok.

I can talk to my family, draw a picture or write about how I feel .

This will help me to feel calm.

School is closed so I am going to stay at home.

This is ok.

School is closed because lots of people are getting ill. It's better for me to stay at home.

This is ok.

Staying at home, washing my hands and covering my mouth if I cough or sneeze will help stop germs from spreading.
