

BLS Instructor Essentials Resources

AHA Instructor Network <http://www.ahainstructornetwork.org>

Students can access this instructor network using the email address and password associated with the BLS Instructor Essentials online portion. The instructor network can be utilized for the following tasks:

- Access to all course materials for your training discipline. This includes skills evaluation sheets, answer sheets, course rosters, lesson plans, and student evaluations. 4
- eCards can be assigned by manual entry or from online course rosters.
- Online course management through the instructor network. This process allows for courses to be searchable by students through the American Heart Association. This step is not required to teach a course.
- Course updates and requirements by the American Heart Association.
- Educational updates and the American Heart Association newsletter.
- Program Administration Manual.
 - The PAM outlines the general policies and requirements for training centers, training sites, courses, and instructors. All instructors are responsible for adhering to the policies as outlined in this manual.

Enrollware: www.enrollware.com

Username: firstinitial.lastname

Password: Blstc123

Enrollware is the system for entering course rosters and uploading documentations. Files related to maintenance of your instructor status should also be uploaded here.

BLS Training Centers: <https://blstrainingcenters.com/instructor>

This site should be used to purchase eCards for BLS and HeatSaver courses. Many course materials can also be located on this page.

Shared eBook Accounts: <https://ebooks.heart.org>

Username: ebooks@blstrainingcenters.com

Password: Blstc123

This site will grant access to the provider manuals and instructor manuals in eBook format for BLS and HeatSaver courses. Please do not change login information.
