

The reasons behind the project!

CM Foundation designed & delivered a project especially for 60 young people from Monday 4th to Thursday 7th April. The aim for this project was to support young people to experience events & enriching activities which support the development of resilience, character & wellbeing along with an aspect of educational value. Using a minibus, we were able to take the young people to a range of local places whilst providing a WOW moment in their lives.

We run between 11am to 3pm. The four days included:

- Street cooking/ Bowling
- Wild Wood Adventure
- Escape room/ Climbing wall
- Laser Quest/ Escape room

The impact of the pandemic on young people, especially the FSM students, has been huge & their personal, social & emotional development has been affected. Through the HAF project we were able to give young people the opportunity to try new things, meet new people & enjoying a healthy meal in a social environment. It's very challenging for all families with household bill going up with the lack of finances & domestic stresses arising, some families are unable to get help or know where to go. Our HAF project also offers signposting to local organisations for the young people.
