4 WEEKS POST TREATMENT

XEOMIN TRANSFORMATION

As the purest toxin on the market, meaning the active ingredients can work immediately and the effects appear after only a couple of days (approximately five) as opposed to 7-14 days following treatment for Botox. Checkout this patients beautiful result. She appears much smoother around the eyes. Makeup will apply easier and won't get swept up in those deep lines and look cakey.

BEFORE

AFTER

Listen HEAR! Just like in the rest of our face, our ear lobes lose fat as we age. The skin also gets thinner adding to the wrinkling effect. Often because of heavy earrings, earlobes have tears or rips. This patients ear Lobe Rejuvenation was done using Belotero!

EARS BEFORE

EARS AFTER

Slimming the face to create a more ideal face shape and facial contouring can be done using Botox or Xeomin. demonstrates 'V' line appearance achieved using tox to slim muscles and filler to contour cheeks, jawline and chin!

Treat marionette lines by the injection of fillers under the skin and over the area of volume loss, to restore the plumpness and youthful appearance, lifting the skin folds/lines from nose to mouth. This procedure is safe and straightforward with minimal or no downtime.

LOWER FACE REJUVENATION

RESULT IMMEDIATELY AFTER

With regular maintenance, a neurotoxin such as Botox or Xeomin can prevent wrinkles caused by muscle movements from forming or deepening which can provide a natural and more youthful look.

AFTER TOX

A chin filler injection is a nonsurgical procedure that alters the contour and definition of the chin. Chin fillers can create a stronger jawline, making the face appear more youthful. These injections can also add more definition between the face and neck.

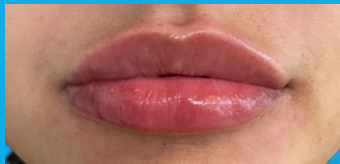

CHIN AUGMENTATION & JAW LINE REVISION

IMMEDIATELY AFTER

Double the Volume. 2 Syringe Lip Volume.

LIP ENHANCEMENT

VOLUMINOUS LIPS

A liquid facelift is an excellent non-surgical option for people seeking a more youthful appearance with quick results, no downtime, and no going under the knife. This patient used a combination of dermal fillers called Radiesse and Belotero to lift, sculpt, and rejuvenate this patient's beautiful face. Radiesse filler works as a Biostimulator to provide immediate volume and long-term endogenous collagen/elastin production.
