Bay Area Democratic Movement Announces Top Endorsement of Doug Rogers for Congress (TX-36)

January 26, 2026 - The Bay Area Democratic Movement (BADM), one of the region's most respected and influential grassroots Democratic organizations, has announced its top endorsement of **Doug Rogers** for Congress in Texas's 36th District. The endorsement follows BADM's rigorous, multi-stage vetting process—an evaluation known for its depth, competitiveness, and high standards for integrity, preparedness, and community impact.

"BADM's endorsement is a tremendous honor," said Rogers. "This organization has a long record of supporting leaders who put people first, and that's exactly what this campaign is about."

Rogers, a Southeast Texas native and longtime financial investigator, has centered his campaign on tackling the rising cost of living in Southeast Texas. His platform focuses on lowering healthcare costs, protecting working families from price spikes, and ensuring that every community has access to affordable care and economic opportunity.

"Families in our district are being squeezed from every direction," Rogers added. "Affordability isn't a talking point—it's the daily reality for the people I meet across TX-36. I'm running to bring real accountability, lower costs, and practical solutions back to Congress."
