First Presbyterian Preschool - Discipline Policy

Our staff have been trained in the Conscious Discipline program. This approach has adults responding to conflict daily, and turning it into a “teachable” moment. We do not use the “time out” method, but rather redirect the child to another activity. The strategy that our facility uses allows students to learn about critical life skills that will help them in the future. Conscious Discipline is an evidence proven method that is the model of character education in the state of Florida.

Teachers may utilize a variety of discipline techniques to meet the needs of different situations:

- Let children make some decisions and choices – one good way to teach responsibility is to give the child as much responsibility as possible.
- Give reasons for rules – understanding the reasons for rules make it easier to remember and follow them.
- Be consistent in our language and behavioral response to children – consistent behavior by adults facilitates development of inner control through modeling.
- Remove children from situations they can’t handle – if a child is too young to understand, or there is no way to change the cause, it may be possible to change the situation.
- Redirect children’s behavior – often there is a way to let children do something in a better place or safer way.
- Let children learn the consequences of their actions – experience is the best teacher.

Teachers WILL NOT humiliate or demean a child in any form, verbally or physically. Such actions will be cause for immediate dismissal. No punitive actions toward children will be tolerated including slapping, hitting, and/or spanking.

In the occurrence of disruptive discipline problems, the staff will notify parents using an incident report, and phone call. To create a behavior plan for the child, the teacher will request a meeting with the parent of the child.

Several attempts will be made to resolve continuing behavioral problems. In the event that no resolution benefiting the child can be achieved, the child will be asked to be withdrawn.

Biting Policy

We want to ensure that every child is safe while in our care. Our program provides an environment that encourages and promotes cooperative interaction, respect for others, and non-aggressive problem solving between the children. Biting is a normal stage of development for young children who are teething and are still developing their language skills. It is usually a temporary condition that is common between ages 2-3. This means that it is a particular concern for the staff in the 2's and 3's Rooms.

Our policy for handling a biting incident is the following:

- The biter is immediately removed from the group with a firm NO. The bitten child is consoled first and the bitten area washed with soap and water. If necessary, ice is applied to reduce any swelling or bruising. The biter is not allowed to return to play and is spoken with and then redirected.
- A phone call is made to each parent.
- A written incident report is given to the parents of all children involved that day.
- The center will make all efforts to ensure the safety of all of our children. If there is a child who (after many different interventions) is seen as a danger to other children, we will consider asking the family to withdraw the biting child.

Child Abuse or Neglect

First Presbyterian Preschool employees are mandated by law to report any indications of child abuse or neglect. Children are viewed as special gifts from God
