

Voices In Recovery Conference and Resource Fair

Vision:

*"To lend a helping hand to those suffering from dual diagnosis,
in and out of the rooms of recovery."*

Mission :

"Our mission is to empower individuals in and out of recovery suffering from dual diagnosis by providing a platform to share stories, access resources, and connect with coordinated care for mental health and addiction recovery. Through awareness and resilience-building in a convenient one stop shop that addresses both conditions, we aim to close service gaps and inspire positive change in individuals and communities, one day at a time."
