## INTRODUCTION

I am deeply passionate about the art of design and thrive on crafting immersive, emotionally resonant spaces for the screen. One of my recent projects, "Streets of Colour" (2023), was nominated for Best Indie Feature at the 2024 AACTA Awards, and also earned a nomination for Feature Film Production of the Year at the 2024 Screen Producers Australia Awards.

I strongly believe in the power of good design to enhance storytelling across screen platforms. I look forward to continue to immerse myself in the Australian and international screen industries to challenge my growing creative skills.
