

Neck Scarves Project for Brown Cancer Center

Fabric Requirements

Light to medium weight fabric. Both sides will have visibility so be sure that the right and wrong side look very similar.

Dimensions : Finished size 9" x 54" to 58". Cut the material 9" wide if serging the edge and 10" wide if turning under a 1/4" hem on a regular sewing machine.

Directions

If you are serging the edges, use a rolled hem. If you are using a regular sewing machine, turn under the raw edge 1/4" and press. Then turn it under another 1/4" and sew all edges.

You can contact me at jrhayes@bellsouth.net, if you complete any scarves and we can make arrangements for me to get them.
