### Guidelines for Display Donations

1. All new displays must be submitted for approval by Nature's Coastal Holiday. Nature's Coastal Holiday reserves the right to reject any submission without cause. Submission should be made either via email or regular mail and include contact information- name, address, daytime phone number, email address.
2. A concept drawing with approximate dimensions will be required. If the display is a ready made piece, a photo of the actual display with dimensions is required.
3. LED outdoor lighting is highly suggested. Other lighting sources may keep a display from being accepted. All lighting must be rated for outdoor use and be in good shape.
4. If the piece is to remain the ownership of an individual/business/group then said same will need to set-up/take-down/maintain and hold Nature's Coastal Holiday harmless for any loss or damage.
5. If the piece is to simply donated, it becomes the property of Nature's Coastal Holiday to set-up/take-down/maintain.
6. Donating parties may have their donation recognized by a sign. The first year, the signage would be free. The following years, current sponsor fees would apply. If a donating party does not pay, Nature's Coastal Holiday has the right to pull the display.
7. Other outdoor holiday decorations may be donated. Items that are in need of repair or need to be restrung will be accepted upon approval.
