Eagle Industrial Instrumentation, LLC  
John Russell  
41073 Lee Dr.  
Gonzales, LA. 70737

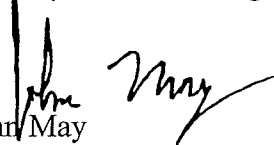

RE: Worker's Compensation Coverage

Mr. Russell,

This will confirm our conversation in which you were advised by our office, that since Eagle Industrial Instrumentation, LLC has not been in an active business mode, NCCI will not have an experience mod in effect for this entity, nor will there be such until the following terms have been met:

Insured has to average \$5,000 in premium for 3 consistent years or \$10,000 in premium for two years before an emod will be calculated, per the state's rulings in this matter.

Thank you for allowing us to service your insurance needs,

John May
