

The Dream Team and Professional Providers Starting in 1972, we have been creating relationships in the Aquatic Industry. These collaborative efforts continued when we were forming and directing the USA Swimming’s Facilities Development Department from 2004 to 2020. In 2020 Total Aquatic Programming LLC expanded this effort and we have developed a network of proven professionals in the aquatics industry to assist our projects in their quest for success. This includes pool and facility design, operations, and programming. These **“Professional Providers”** (DREAM TEAM) have offered to extend either preferred pricing and/or services to our TAP projects and their affiliates and partners. This supports facilities in building and operating more effective, efficient, and more successful profitable businesses.

Current types of assistance include:

- Design, Engineering, and Consulting Firms
- Building and Construction representatives
- Product Manufacturers
- Service suppliers
- Distributors
- Programming specialist

We are actively seeking reliable firms with a proven history to expand service options for our clients' projects.

The companies that make up our professional providers list must meet our expectations for exemplary service, knowledge, and quality of workmanship for our customers. They must attend a National Build and Program a Pool Conference at least once every 3 years. Our providers can coordinate all activities with TAP while supporting solution-oriented innovation in the aquatics field. TAP-LLC is not responsible for quality of products or services from any companies listed as professional providers. If there is a cost savings realized by using our professional providers, those savings are passed on directly to our projects. Providers who make or distribute a PRODUCT must have a minimum of 2 years of successful product use-statistics in the USA for a minimum of 15 aquatic centers in at least 5 states.

TAP has different levels of sponsorship support options available. Please contact mick@totalaquatic.llc or snelson@totalaquatic.llc for more information. Here is a list of Dream Team sponsors and professional providers.
