

Makin' Memories with Kira presents

# The Growth Project

Growth- The Beauty Within

Thanks for purchasing a ticket to the Growth Project Exhibition  
When: Sat May 18th  
Time: 5:30-7pm  
Location: Muse the Label Collective

## How did the project come about?

In 2022, when pregnant with my second child, I had a lightbulb moment. I wanted to capture other women who were in the same season of life as me. I wanted to find some women that were also pregnant and showcase their bodies through this stage of their life. Being pregnant can be a beautiful season of our lives, but it can also be a very vulnerable time. It is a time when we might not feel confident in what we look or feel like; a time when we might feel lonely and isolated and of course a time of the unknown. When pregnant with my first child, I was able to enjoy the process and feel extremely grateful for what my body was able to do. When pregnant with my second child, this amazement for women's bodies grew deeper and that's when the idea of 'The Growth Project' came to light. I was lucky enough to find 7 other women of a variety of ages and number of pregnancies that wanted to come along on this journey with me. I captured their bodies in all different lights towards the end of their pregnancies. I feel eternally grateful to these women for allowing me to create something special.

"Pregnancy & motherhood is such an exciting time but it also brings about change to just about every aspect of your life. I'm incredibly grateful to Kira for giving me the opportunity to share in this journey with the amazing Growth Project ladies. Your support during this incredibly special time and beyond is something I will always cherish".

"As the oldest of the group, I was nervous and feeling vulnerable but after missing photos with my first (came at 35 weeks) and my second baby (Covid) I thought I need to embrace my body. Kira made me feel like a goddess and I am in awe of the images and felt so empowered to celebrate my pregnancy and the changes to my body".

"Being apart of the Growth Project was such a privilege. I feel so lucky to have been apart of this with Kira and the other girls. I can't wait to see this all come to life. Kira has worked so hard and we are so proud of her".
