Host Your Next Company Event or Team Building Exercise with Chicago Art and Design Center!

We specialize in creating unique, inspiring and highly enjoyable corporate art events or holiday parties. Whether you need assistance with corporate meetings/seminars or a great after work activity or holiday parties to show employee appreciation and build upon camaraderie between employees.

Create, Communicate, and Conquer!

The Triple C's is a fun and challenging activity that gives your employees a chance to brainstorm new ideas for the company through creativity, communication, and teamwork.

The group will first break into equal teams where they will work together to create a new product, service, or idea for the company. With the given art supplies, each team will build a model of this new concept and create the advertisement piece. The goal is for each team to create and sell its concept to the panel of judges (The CADC team and/or managers from your company). The judges then rate each team on creativity, quality of production, and sales presentation. Once the presentations are complete, the judges will award the team with the highest score. The activity will follow with a celebratory cocktail to continue employee engagement and excitement!

"Create Communicate and Conquer"

- Create a new product/service for company
- Design a new company logo
- Form ideas on how to grow the company
- Design a new building for your company's headquarters
- Develop your company's future aspirations
- Practice thinking "out of the box"

Leadership Project

The head art instructor will start off the event with a short lesson on painting techniques and idea creation. Each individual will then have their own working space with a blank canvas and painting material. Everyone is given a time frame to begin painting their vision on their canvas. When the time is up, they must immediately put their brushes down and rotate to another canvas in the room. They will then begin painting on the new canvas which has already been partly painted on. They can paint whatever they feel is appropriate given the initial foundation on the canvas already. They will be given the same amount of time to paint. When the time is up, the participants will be instructed to bring their canvas to the front of the room where they will be displayed for everyone to see. The head art instructor will gather everyone and share his/her observations on the progress of the paintings (this may include positive reinforcement and suggestions to improve/enhance).

After this mid-point, each participant will be instructed to select a painting that they have not yet worked with and finish the vision. Once the exercise is complete, all paintings are brought to the front of the room and a debrief discussion is led by the champions. We will have a series of questions that structure the discussion, and we will encourage an open dialogue.

Create a Mural

We'll help you create a mural of your company logo or other themes. Once a design is selected, guests are divided into groups and work together on the assigned panels. The completed panels are then placed together to create the big picture. All is revealed when the great unveiling ceremony takes place.

Painting Murals – A popular option for the painting mural is creating an image that reflects your company's identity or aspirations. Guests divide into groups and work together to paint on large canvas (30" X 40") with pre-drawn line art. All the canvas come together to create a complete design of your choosing.

Paint a Piece

Follow an Artist -All guests follow along on their own 16 X 20 canvas as one artist replicates an original piece selected in advance from the CADC's library. Additional art instructor, circulate to provide assistance. Guests take home their painting.

Chicago Art and Design Center
773.680.6270

The **BIG** Picture

We'll help you create a mural of your company logo or other themes. Once a design is selected, guests are divided into groups and work together on the assigned panels. The completed panels are then placed together to create the big picture. All is revealed when the great unveiling ceremony takes place.

Painting— A popular option for the painting mural is creating an image that reflects your company's identity or aspirations. The large canvas will be broken up into pieces where teams will quickly realize that to succeed, they will have to co operate and work together.

Company Picnics

Bring your employees and guests together for a private company picnic that is truly a unique experience. Whether during the week or on the weekend, CADC caters to all age groups – children, adults, and seniors.

Art Relaxation

Life in today's world is a very busy, stressful one. Take time out from your hectic life to relax the mind with our Creative Relaxation courses. These art & craft based classes aim to simulate your creative juices while releasing the tensions of our stressful world.

Choose your piece!

You'll work with Chicago Art and Design Center to choose 2-3 different art pieces in advance. Guests will choose the piece they'd like to complete and instructions will be given to help each individual create their own master piece. Take this time to wind down from the work day while listening to soothing music and sipping on some wine (BYOB) as you and your co-workings each create a piece of art to take home or display in the office.

We will come to your facility, a select venue, or you can come to our studio to create a memorable art event. Setup and cleaning are included as well as all supplies, i.e. paint, paint brushes, canvas boards, etc.

TESTIMONY

Stacy Fairbrother
Crowe Horwath / 2011

I was in charge of planning an event for over 50 of my coworkers. I was pretty nervous about planning an event for a large group of very diverse people, but Derin and her team were extremely helpful and a complete joy to work with.

From the beginning they were great at communicating ideas for the flow of the evening, suggesting paintings that would be of interest to everyone and didn't hesitate to travel a great distance to the location.

At the event they brought every imaginable supply, contributed to the relaxing atmosphere by mingling with all of the participants and offering great advice throughout the evening. Everyone had a great time thanks to the Chicago Art and Design team.
