I did not expect to love this book. But then, I couldn't put it down. I got hooked pretty quickly on the charm of the main character as he found his way in the world of boxing and beyond. While boxing is a through-line in Danny's life it's far from the center of it. His story takes the reader on a ride that's packed with high adventure, glamorous romance and impending danger. And I really did not see that end coming. The author writes with authority on many subjects that contribute to the roller-coaster plot. I enjoyed this book so much that I gave it to a friend. I made sure I got it back

Whether you know boxing inside and out or are just interested in entertaining fiction, "The Unexpected Danny Green" is a fun ride from start to finish, taking the protagonist from a small Southern town to The Big Apple to the Caribbean to the most luxurious spots in Europe to Hollywood and more. You never know where Danny will end up. Paul Friedman demonstrates a talent for storytelling, dialogue, and fascinating detail. I was totally entertained and recommend it highly - a great first novel - can't wait for No. 2!

I loved this book! When I started it I was a little worried that it would be all about boxing. It did get into that and I was actually interested but it wasn't the main focus of the plot. There was great character development and some real surprises. I also liked the detailed descriptions of NY and LA and it brought up some old memories. Kudos to the author on his first novel!
