

TEMPORARY

David Young steps up

David Young will manage on a part-time basis the clubhouse and course maintenance to meet the Club's needs from December through February. David will mow, set out carts, answer calls, identify needed repairs — and benefit from member volunteer assistance.

Jarrold Miller will provide consulting services to David, and subsequently to the greenskeeper hired on or after March 1. In addition to advising greenskeepers on the equipment, systems and procedures, Jarrod will advise and possibly broker equipment replacement purchases.

Please contact David Young on the Club's phone, 620-879-2055, to identify maintenance needs or volunteer.

Wheels up...dead mowers must be replaced

There comes a time when pouring new money into worn-out equipment is a folly. The extent of repairs needed for the Hustler and rough mower outweigh the ability to bring them back to reliable operation.

Ron Oyler and Jarrod Miller are researching reliability, value, history, availability, timing and price; and soliciting bids for a new mower and a used rough mower.

Residential lot sales progress

Efforts underway:

- Drafting contract to sell first lot to Kerry Gorby, including required covenants such as maintaining club membership and establishing maintenance agreements for entry drive.
- The board will request a meeting with Matt Debo, newly named director of Montgomery County Environmental Health and Zoning Administration.
- Ron Oyler will lead the effort to determine proposed lot dimensions and mark them, then create a rough plat to present to the County Commission.

Job posting starts Jan. 1

The open greenskeeper position will be posted

beginning Jan. 1 on free job-posting sites like Indeed, SimplyHired, Wisestep and JobSpider. Additional resources will be tapped, like area Facebook classified groups, our *caneygolf.com* and Facebook sites. Board members will contact area courses and universities with turf management degrees to identify this resume and experience builder for graduates.

Members are the best resources to spread the word. If you have a candidate or hear of someone with construction, landscaping or mechanical repair experience who works responsibly, please refer them to Criss Davis, 620-252-8716 or *caneygolf@gmail.com*.

Cutting donuts—not always a good thing

A recent act of vandalism left one gas cart, shed and course damaged. The youthful offenders were caught by the Montgomery County Sheriff's Office after having broken in taking a cart, cutting donuts on the course and driving range, reportedly driving into town and abandoning the cart.

A claim for \$3,500 in damages will be paid to the Club through the sheriff's office, having been collected by the sheriff's office from the offenders.
