

THE PERFECT DERMA™
A chemical peel, RX

QUICK FACT SHEET

Revitalize aging skin with **The Perfect Derma™ Peel!**

The **ONLY** medium depth, medical grade peel featuring the master antioxidant **Glutathione**.

Safe for ALL Skin Types & ALL Ethnicities.

Superior results for:

- Aging skin
- Hyperpigmentation, including melasma
- Sun damage
- Acne
- Acne scars, textural scars
- Reducing fine lines & wrinkles, and minimizing the appearance of pore size
- Rosacea
- Rough, dry body areas

KEY INGREDIENTS

A synergistic blend of acids designed to reach the papillary dermis. **Peel pH: 1.3-1.4**

Glutathione - Powerful antioxidant and skin brightener; the peel's blend of acids delivers glutathione deep into the basal layer where it improves cellular health, skin brightener

Trichloroacetic Acid (TCA) - Exfoliates and resurfaces while stimulating collagen to repair the skin

Phenol - Traps free radicals, exfoliates and numbs the skin

Retinoic Acid (Vitamin A) - Exfoliates, normalizes cell turnover, and promotes collagen and elastin production

Salicylic Acid - Digests surface cells, has anti-inflammatory properties with acne fighting benefits; clears clogged pores

Kojic Acid - Antibacterial; suppresses pigment and brightens the skin

L-Ascorbic Acid (Vitamin C) - Antioxidant and skin brightener; also protects the skin from UV damage while stimulating collagen production

THREE PERFECT BOOSTERS

Perfect PLUS PLUS

- Contains 4% Hydroquinone & 1% Hydrocortisone
- Boosts the action of the peel for a stronger treatment; targets stubborn pigmentation including melasma

Perfect PLUS

- Boosts the action of the peel for a stronger treatment for aging skin concerns

Perfect CLEAR

- Contains 5% Benzoyl Peroxide & 1% Hydrocortisone
- A stronger treatment for patients with moderate to severe acne or cystic acne

Note: Boosters must be mixed with the peel solution, then administered. Do not spot treat.
