Purely Phosphorus 1-29-0

For Professional Use Only

Ingredient Disclosure:

Nitrogen1.00%
Water Soluble Nitrogen.....1.00%
Water Insoluble Nitrogen.....0.00%

Available Phosphate (P_2O_5).....29.00%

CAUTION: Keep out of reach of children.

Purely Phosphorus 1-29-0 Attributes: Purely Phosphorus 1-29-0 is a steamed bone meal derived exclusively from a porcine source and is carefully processed to create the highest quality phosphorus and calcium available to growers and gardeners. Phosphorus supports healthy root systems, aids in stem and fruit development and promotes stress resistance. In addition, Purely Phosphorus 1-29-0 also contains calcium, which plays an equally important role in the overall health of the plant and soil, creating the balance necessary for healthy plants. Purely Phosphorus 1-29-0 is an essential source of both phosphorus and calcium for flowers, turf, trees, shrubs and vegetable gardens.

Directions For Use: Steamed bone meal should be used as part of a comprehensive total nutrition system to optimize plant growth development, yield and quality. Sprinkle over the planting area in early Spring or Fall. When planting a new garden, spread 3 lbs. for every 50 square feet of soil. Work into the soil well, using a garden tiller. For existing beds, rake the top 2 inches of soil around the plants. Water the soil well after application using at least 1 to 2 inches of water to soak the bone meal down near the plant roots. Wash bone meal off leaves of any existing plants. Application rate may be adjusted based on your current soil test.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

STORAGE: Stable when stored in its original packaging under dry conditions.

Purely 13-0-0 WSN

GUARANTEED ANALYSIS:

Total Nitrogen (N).....13.00%
12.89% Water Soluble Nitrogen
0.11% Water Insoluble Nitrogen

Derived From: Soy Protein Hydrolysate

Mixing instructions: Mix well in the desired amount of water. Purely 13-0-0 WSN should be compatible with most other fertilizers and plant nutrients with the exception of products containing high levels of Calcium (i.e. CAN 17).

Application with pesticides, such as herbicides, may reduce expected results. When mixing with other products it is recommended that a physical compatibility test be conducted before use. A test using small quantities in proportion of field application rates is recommended.

Directions for Use: Agricultural and horticultural crops: Apply 2-10 pounds per acre when plants are actively growing or as needed based on your nutrient management program determined from soil and tissue analysis for your specific crop. This product is a commercial fertilizer and should be used as part of a comprehensive nutrient management program on organic or conventionally grown plants.

Storage: Store in the original container in a cool, dry place away from excessive moisture and heat. Reseal container after each use. Disposal: Dispose of product and container in accordance with local/regional/national/international regulations.

May be harmful if swallowed. Avoid contact with eyes, skin, open cuts or sores. KEEP OUT OF REACH OF CHILDREN AND PETS. Wash hands after use. For general clean up, use warm, soapy water.

Purely Herb Grow 6-3-6

A Much-Needed Culinary Herb Fertilizer that Contains No Harsh Ingredients

Purely Organic Products, LLC Purely Herb Grow 6-3-6 is a culinary herb fertilizer that contains no harsh ingredients. Purely Herb is designed for indoor and outdoor applications and is ideal for feeding a wide-range of culinary herbs.

Purely Herb provides you with significant benefits, including:

- No Harsh Ingredients
- Contains Humic Acid
- Designed for Indoor and Outdoor Applications
- Suitable for Feeding Outdoor Culinary Herb Gardens
- Perfect for Feeding a Wide-Range of Culinary Herbs
- Convenient Packaging- Simply Shake Purely Herb on the Soil of Your Herb Plants
- Ideal for Feeding Potted Plants and Garden Beds

Ideal for Feeding a Variety of Culinary Herb Crops

Purely Herb is suitable for feeding a wide-range of herb crops, including:

- Rosemary
- Basil
- Thyme
- Oregano
- Dill
- Mint
- Parsley
- Lavender
- Cilantro
- Chives
- Fennel
- And More

NOP Compliant, Adjuvant/Humectant, Non-Flammable, Water Soluble

Principal Functioning Agent:

Acrylic Acid Polymer.....2.0%
Constituents Ineffective as Spray Adjuvant:.....98.0%
Total.....100.00%

Ingredients exempt from the requirements of a tolerance under 40 CFR 180

**KEEP OUT OF REACH OF CHILDREN.
CAUTION.**

CAUTION: Spilled surfaces are extremely slippery.

Purely Hydro Attributes: Purely Hydro is a polymer-gel which when placed into solution with water and mixed with appropriate agricultural chemicals enhances wetting, adhesion, and facilitates redistribution with ambient moisture, thereby increasing protection during plant growth, resulting in a reduction of chemical usage.

PRECAUTIONARY STATEMENTS: Causes irritation to skin, eyes and respiratory tract. Harmful if swallowed or inhaled. Wear goggles or face shield, rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash clothing before reuse. **FIRST AID:** Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **IF ON SKIN OR CLOTHING:** Wipe off excess material from skin. Immediately rinse skin with water for at least 15 minutes. Remove contaminated clothing and shoes. Wash clothing before reuse. Call a physician. **IF IN EYES:** Immediately flush eyes with plenty of water for at least 15 minutes, lifting upper and lower eyelids occasionally. Remove contact lenses if present after the first 5 minutes and continue rinsing eye. Seek medical attention immediately. **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless instructed to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF INHALED:** Move person to fresh air. If person is not breathing, call an ambulance, and then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. **ENVIRONMENTAL HAZARD:** This product may be toxic to aquatic life in concentrate form. Do not discharge effluent containing this product into lakes, streams, pools, estuaries, oceans or other waters unless in accordance with the requirements and notifications of local authorities, or with acquiring appropriate written permit prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local or regional sewage treatment plant authority. Waste water containing this product may be considered for accumulated biological treatment. For guidance, contact your local water governing office or environmental protection agency. **PHYSICAL OR CHEMICAL HAZARDS:** Do not mix with oxidizers, alkaline soaps and detergents. **Directions For Use:** 1. Fill tank 1/4 of the total amount of water. 2. Add Purely Hydro slowly while maintaining vigorous agitation. 3. Agitate until Purely Hydro is completely dissolved. **The appearance of small white particles may indicate the presence of hard water conditions, which may necessitate the use of a water softener.** 4. Add desired chemicals per their directions, while continuing vigorous agitation. 5. Do not breathe spray mist. Purely Hydro may be dissolved with water down to an effective dilution of 0.4% and will still maintain its gel structure. Evaluation of chemical compatibility, including gel consistency and attribute efficacy is the sole responsibility of the user. For further information, please refer to the SDS. **STORAGE AND DISPOSAL:** Do not contaminate water, food or feed by storage and disposal. **STORAGE:** Open dumping is prohibited. Store only in original container. Do not reuse empty container. Keep this product under locked storage inaccessible to children. **DISPOSAL:** Improper disposal of excess solution or spray mixture may be in violation of federal law. If these wastes cannot be disposed of by use in accordance to label instructions, contact your local or federal environmental control agency, or a hazardous waste specialist or other appropriate authority for guidance. **CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, by incineration, or if allowed by federal, regional and local authorities, by burning. If burned, stay out of smoke.

NOT FOR AQUATIC USE.

PRODUCT EXPIRES 12 MONTHS FROM THE DATE OF MANUFACTURE.

Purely Hydro

An OMRI- Listed, Combination Adjuvant That Delivers The Most In-Demand Functions

Purely Organic Products, LLC Purely Hydro is an OMRI-Listed, innovative, fourth generation Static Migratory Adjuvants Rheological Transformation (S.M.A.R.T) polymer, suitable for use by organic growers and designed for use in various environments. Purely Hydro combines many of the most popular adjuvant functions into one effective, unique, water-based product.

Purely Hydro is a combination:

- Sticker
- Spreader
- Drift Retardant
- Wetting Agent
- Penetrant

How Purely Hydro Works:

Purely Hydro monomers form a polymer gel. When a third party active ingredient is added, the individual ingredient molecules are encapsulated within the larger Purely Hydro polymer structure.

Benefit from a Cost Effective Product that Contains No Harsh Ingredients

- **Virtually Non-Toxic**- Purely Hydro is non-toxic to animals and is formulated with all components listed on the EPA's, Generally Recognized as Safe (GRAS) list by the FDA (21 CFR Part 182).
- **OMRI listed**- For Organic Use. .
- **Versatile Product**: Multiple Adjuvant Functions in One Product- Purely Hydro is a sticker, spreader, drift retardant, wetting agent and penetrant in one product.
- **Reduces Dependency on Fertilizers and Chemical Treatments.**
- **A Cost Effective, Time Saving Solution**- Prolongs intervals between treatments, so fewer spray applications are needed to achieve a consistent result.
- **Improves the Effectiveness of Chemical Treatments by:**
 - » Maximizing Sticker Coverage.
 - » Increasing Active Ingredient Duration on Host.
 - » Minimizing Runoff.
 - » Reducing Drift During Spray Applications.
 - » Compatible with Most Chemical Treatments.
 - » Maintains its SMART Polymer Gel Structure.
- **Excellent Coverage**- 8 Ounces of Purely Hydro treats one acre.
- **Cooling/Humidity Absorber**- Traps water within the gel for added hydration.
- **Boosts Plants' Ability to Withstand Drought.**
- **Protects Against Temperature Damage, Sunburn and Frost.**

Reduces Water Usage and Your Carbon Footprint

In addition to minimizing the amount of fertilizers and chemicals required, Purely Hydro also:

- **Reduces Water Usage**- Traps water and moisture on targeted surfaces, reducing the need for fresh water.
- **Decreases GHG (CO2) Emissions**- Minimizes metal dependency, and the need for operating equipment that burns hydrocarbon fuels.
- **Optimizes Treatments.**
- **Increases Retention of Antimicrobials and Nutrients.**
- **Reduces Environmental Toxicity**- By keeping the chemicals on the substrate longer.

OPTIMIZES PHOSPHORUS UPTAKE • REDUCES INPUT COSTS • INCREASES CROP YIELDS

PRO-YIELD
PURELY PRO

Purely Pro P is a natural, microbial product that increases plants' uptake of nutrients, including phosphorus. Designed for use on all crops, Purely Pro P features an innovative blend of 4 beneficial endomycorrhizal and 7 ectomycorrhizal fungi species, the same fungi responsible for 90% of the world's plant species forming symbiotic relationships. Purely Pro P optimizes plants' ability to utilize naturally-occurring nutrients, as a result, larger and stronger root systems form, for increased crop yields.

Purpose: Increases plants' uptake of nutrients, including phosphorus.

GUARANTEED ANALYSIS

CONTAINS NON PLANT FOOD INGREDIENTS:

ACTIVE INGREDIENTS:

75% Fungi Blend

Glomus intraradices	(55 PROPAGULES/GRAM)
Glomus mosseae	(55 PROPAGULES/GRAM)
Glomus aggregatum	(55 PROPAGULES/GRAM)
Glomus etunicatum	(55 PROPAGULES/GRAM)
Rhizopogon villosulus	(2,750 PROPAGULES/GRAM)
Rhizopogon luteolus	(2,750 PROPAGULES/GRAM)
Rhizopogon amylopogon	(2,750 PROPAGULES/GRAM)
Rhizopogon fulvigleba	(2,750 PROPAGULES/GRAM)
Pisolithus tinctorius	(200,000 PROPAGULES/GRAM)
Scleroderma cepa	(5,500 PROPAGULES/GRAM)
Scleroderma citrinum	(5,500 PROPAGULES/GRAM)

25% Total Other Inert Ingredients

DIRECTIONS FOR USE

Application methods need to deliver the Purely Pro P solution into the moist root zone. Contact with foliage is not a problem but the bulk of the application should contact the root zone to maximize efficacy. Do not tank mix with fertilizers or agrochemicals.

MIXING

Calculate the amount of water to be delivered to the crop area and mix in the correct amount of Purely Pro P microbe solution after shaking it to re-suspend the microbes. Apply the tank mixed microbes within 24 hours and stir to re-suspend the microbes in the tank if necessary.

APPLICATION METHODS

1. Via overhead irrigation in enough water to take the microbes into the root zone.
2. Via any fertigation system including micro sprinklers, drip irrigation, trickle tape or similar.
3. Via liquid injection from a tine that cuts into the root zone. Note that tines are available that can deliver fertilizer products at one depth and Purely Pro P at a different depth. Apply in as much water volume as is practical (minimum 12 gal per acre).
4. Via water run in-furrow irrigation (flood irrigation). This applies to farmers who are set up to deliver urea etc. by this method.
5. By boomspray onto moist soil. Use very coarse or streaming nozzles and as much water as is practical. For wide row crops band the application onto the plants.

Storage: Keep container tightly closed and store locked up in a cool (<140F), well-ventilated place.

Disposal: Dispose of contents/container in accordance with local/regional/national/international regulations.

BENEFITS

- **Maximizes Profitability**
Promotes vigor and strength of crops for higher yields.
- **Reduces Input Costs**
Minimizes or eliminates the need for conventional fertilizers.
- **Boosts Plants' Uptake of Nutrients**
Including naturally-occurring phosphorous.
- **Facilitates Larger and Stronger Root Systems**
Which grow deeper and attach to the plant.
- **Increases Crop Yields**

WARNING

Causes skin and eye irritation. Suspected of causing cancer. May cause respiratory irritation.

PREVENTION

Avoid breathing dust/fume/-gas/mist/vapors/spray. Use only outdoors or in a well-ventilated area. Wear protective gloves and wash thoroughly after handling. Do not handle until all safety precautions have been read and understood. Take off contaminated clothing and wash it before reuse.

RESPONSE

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

IF ON SKIN: Wash with plenty of water. If skin irritation occurs: Get medical attention.

If exposed or concerned: Get medical attention. Call a POISON CENTER/doctor if you feel unwell.

For specific treatment – see supplementary first aid instruction on Safety Data Sheet.

WARNING: This product contains a chemical known to the State of California to cause cancer.

PRO-YIELD

PURELYPRO

Pro-Yield Purely Pro P

Reduces Input Costs, Increases Crop Yields and Optimizes Phosphorus Uptake

Purely Prop P is an OMRI-Listed natural, microbial product for use by growers of organic crops. Purely Pro P increases plants' uptake of nutrients, including phosphorus. Featuring an innovative blend of beneficial fungi that bind to the plant system, Purely Pro P optimizes plants' ability to utilize naturally-occurring nutrients, resulting in larger and stronger root systems and increased crop yields.

Benefit from the Same Fungi Responsible for 90% of the World's Plant Species

With a blend of 4 endomycorrhizal fungi species and 7 ectomycorrhizal fungi species, Purely Pro P contains the same fungi responsible for forming symbiotic relationships in 90% of the world's plant species.

Purely Pro P improves crop yield and plant health by colonizing plant roots, which expand into the surrounding soil, greatly increasing the root's ability to absorb water and nutrients.

Grow Stronger, More Abundant Crops with a Proven Product that Features Numerous Advantages:

- **Maximizes Profitability-** Promotes the health and strength of crops for increased yields.
- **Reduces Conventional Inputs and Costs-** Minimizes or eliminates the need for conventional inputs. Conventional systems may combine Purely Pro P with natural or synthetic inputs.
- **OMRI-Listed for Organic Use-** Purely Pro P is OMRI-Listed for organic use, making it suitable for organic farming.
- **An Innovative Blend-** With spores of 4 endomycorrhizal fungi species and 7 ectomycorrhizal fungi species, Purely Pro P contains the same fungi responsible for forming symbiotic relationships in 90% of the world's plant species.
- **Boosts Plants' Uptake of Nutrients-** Including naturally-occurring phosphorus.
- **Facilitates Larger and Stronger Root Systems-** Which grow deeper and attach to the plant.
- **Suitable for Use on Most Crops.**
- **Increases Crop Yields.**

Purely Pro P has been Successfully Used in:

- All Fruit Crops
- Phosphorus-Dependent Crops

PRO-YIELD

PURELY PRO

N

Custom Blend Featuring 5 Species of Beneficial Bacteria and 4 Species of Beneficial Fungi.

Purely Pro N is a custom blend microbial product that improves crop yields and productivity, strengthens plants, and reduces or eliminates reliance on conventional products. By increasing plants' uptake of natural nitrogen, Purely Pro N makes natural nitrogen more readily available to plants, resulting in stronger, more abundant crops that withstand drought stress, transplant shock and nutrient loss.

Purpose: Increases plants' uptake of nutrients, including nitrogen.

GUARANTEED ANALYSIS

CONTAINS NON PLANT FOOD INGREDIENTS:

Active Ingredients:

1% Microbe blend

Bacillus subtilis	4.4 mm cfu/gm
Bacillus pumilus	4.4 mm cfu/gm
Bacillus megaterium	4.4 mm cfu/gm
Bacillus licheniformis	15.3 mm cfu/gm
Bacillus amyloliquefaciens	15.3 mm cfu/gm
Glomus intraradices	71 propagules/gm
Glomus mosseae	71 propagules/gm
Glomus aggregatum	71 propagules/gm
Glomus entunicatum	71 propagules/gm

99% Total Other Inert Ingredients

DIRECTIONS FOR USE

Application methods need to deliver the Purely Pro N solution into the moist root zone. Contact with foliage is not a problem but the bulk of the application should contact the root zone to maximize efficacy. Do not tank mix with fertilizers or agrochemicals.

MIXING

Calculate the amount of water to be delivered to the crop area and mix in the correct amount of Purely Pro N microbe solution after shaking it to re-suspend the microbes. Apply the tank mixed microbes within 24 hours and stir to re-suspend the microbes in the tank if necessary.

APPLICATION METHODS

1. Via overhead irrigation in enough water to take the microbes into the root zone.
2. Via any fertigation system including micro sprinklers, drip irrigation, trickle tape or similar.
3. Via liquid injection from a tine that cuts into the root zone. Note that tines are available that can deliver fertilizer products at one depth and Purely Pro P at a different depth. Apply in as much water volume as is practical (minimum 12 gal per acre).
4. Via water run in-furrow irrigation (flood irrigation). This applies to farmers who are set up to deliver urea etc. by this method.
5. By boomspray onto moist soil. Use very coarse or streaming nozzles and as much water as is practical. For wide row crops band the application onto the plants.

Storage: Keep container tightly closed and store locked up in a cool (<140F), well-ventilated place.

Disposal: Dispose of contents/container in accordance with local/regional/national/international regulations.

BENEFITS

- Reduces or Eliminates Reliance on Conventional Products.
- Contains 5 Species of Beneficial Bacteria.
- Contains 4 Species of Beneficial Fungi.
- Improves Yields, Fruiting and Flowering.
- Apply to Foliage or Root System.
- Use on Broad Acre, Horticultural and Tree Crops.
- Produces Stronger, More Abundant Plants.

WARNING

Causes skin and eye irritation. Suspected of causing cancer. May cause respiratory irritation.

PREVENTION

Avoid breathing dust/fume/-gas/mist/vapors/spray. Use only outdoors or in a well-ventilated area. Wear protective gloves and wash thoroughly after handling. Do not handle until all safety precautions have been read and understood. Take off contaminated clothing and wash it before reuse.

PURELY PRO

N

Pro-Yield Purely Pro N

Increase Crop Yields with an Innovative Custom Blend Suitable for All Crops

Purely Pro N is a custom blend microbial product that improves crop yields and productivity, strengthens plants, and reduces or eliminates reliance on conventional products. Featuring an innovative blend of 5 species of beneficial bacteria and 4 species of beneficial fungi, Purely Pro N boosts plants' nutrient uptake and strengthens root systems, naturally, for self-sufficient plants and increased crop yields.

Makes Nitrogen More Readily Available to Crops

By increasing plants' uptake of natural nitrogen, Purely Pro N makes natural nitrogen more readily available to plants, resulting in stronger, healthier and more abundant crops that withstand drought stress, transplant shock and nutrient loss.

Boost Your Bottomline with a Product that Features Numerous Advantages:

- **Custom Blend-** Containing 5 Species of Beneficial Bacteria and 4 Species of Beneficial Fungi.
- **Reduces or Eliminates Reliance on Conventional Inputs-** Conventional systems may combine Purely Pro N with a natural or chemical nitrogen source to reduce rates and reliance on conventional products.
- **Ideal for Organic Farming-** Organic systems may apply Purely Pro N without co-application of nitrogen fertilizer.
- **Natural-** Contains no pesticides and no chemicals.
- **Eco-Friendly-** In addition to being natural, Purely Pro N also reduces water inputs.
- **Improves Crop Yields-** As well as growth, fruiting, flowering and survivability.
- **Produces Stronger, More Abundant Plants.**
- **Minimizes Drought Stress, Transplant Shock and Nutrient Loss.**
- **Promotes Rooting and Nutrient Uptake.**
- **Various Applications, Apply to Foliage or Root System.**
- **Proven Effective on All Crops, Including Broad Acre, Horticultural and Tree Crops.**

Purely Pro N has been Successfully Used in:

Broad Acre Crops, including-

• Wheat, corn, barley, oats, sorghum, rice, cotton, soybean, lupins, mung beans, pastures and several other broad acre crops.

Horticultural and Tree Crops, including-

• Cauliflower, tomatoes, lettuces, celery, spinach, potatoes, grapes, apples, macadamia and citrus.

POWERFUL INOCULANT • PROMOTES RAPID GERMINATION • INCREASES CROP YIELDS

PRO-YIELD
PURELYPRO SEED

Purely Pro Seed is a seed inoculant and dipping solution for transplantation planting. This innovative seed coat features beneficial fungi and bacteria, as well as microbes and bio-char. The effective, finely micronized, powder-blend coats seeds, and provides significant advantages, including:

- **Prepares seeds for faster germination.**
- **Promotes the immediate uptake of nutrients.**
- **Increases crop yields.**

DIRECTIONS FOR USE

As a seed inoculant,

Purely Pro Seed, is suitable for various crops, including:

Line Crops: 1 lb. per 450 lbs. of seed.

Vegetables: 1 lb. per 850 lbs. of seed.

Stone Fruits: 1 lb. per 350 lbs. of seed.

Cereal Grains: 1 lb. per 550 lbs. of seed.

Turfgrass: 1 lb. per 250 lbs. of seed.

As Transplant Dipping Solution:

Transplants: 1 lb. in 50 gallons of water for dipping solution.

Derived from: Micronized Bio-Char, Bacillus Subtilis, Bacillus Licheniformis, Endomycorrhizal Fungi.
