Frequently Asked Questions (FAQ)

What is automatic billing?

Automatic billing means your remaining trip balance is divided into equal monthly payments charged automatically to your card. You'll see the payment schedule upfront, and you can use one card for the entire balance.

What are the perks of automatic billing?

- **Effortless planning** – no calendar reminders needed
- **Free to use** – no setup fees or added cost
- **Stress-free travel** – avoid late fees or cancellations
- **Stay in the know** – email reminders and confirmations for every payment

Will I get a heads-up before I'm charged?

Yes! We send a payment reminder at the beginning of each month and a confirmation once your payment is processed.

How many payments will I make, and when?

Your number of payments depends on when you book your trip and how many months remain until your final payment is due. Each payment is processed on or near the same calendar day each month, based on your initial booking date.

Is my credit card information secure?

Absolutely. We partner with a secure, PCI-DSS-compliant payment processor to protect your information. **The Selfish Luxury Traveler** does not store your credit card information directly. If you're enrolled in auto-billing, our third-party processor securely retains only what's needed to manage payments.

What happens if my credit card is declined?

If a payment attempt fails, we'll try again two days later. If it fails a second time, we'll email you immediately with instructions to make a payment manually. Missed payments may result in cancellation of your reservation.

What if I get a new card or my current card expires?

You can update your card details anytime. Simply log in to your guest account and update your payment method to keep your plan on track.

Can I pay off my balance early?

Yes! If you'd like to pay your trip in full before your final scheduled payment, email support@theselfishluxurytraveler.com **at least two weeks before your next billing date**. We'll send you a secure payment link, and once your balance is paid, your automatic billing will be deactivated.
