

Participant Agreement

I _____ DDS/DMD understand that the Northwest Continuing Education Center's Curriculum does not replace good judgment and ethical foundation as a dentist and professional. As always, the well-being, safety, and overall health of the patient is considered the highest priority. I agree that I will follow all standards of care during participation in the presented curriculum.

I understand that participation in the Northwest Continuing Education Center's Curriculum does not replace a university based residency or specialist program. Participation in the Northwest Continuing Education Center Curriculum does not make the participant a "specialist" of the presented material and curriculum. Any misrepresentation is against the code of ethics set forth by the ADA and against the law.

I _____ the participant, agree not to hold Northwest Continuing Education Center liable for the outcome of my clinical practice or in any other manner related to the content and consultation through Northwest Continuing Education Center. I understand that Northwest Continuing Education Center is a resource to increase my knowledge regarding endodontic practices and it does not in any way relate to my decision to how I practice and treat any of my patients as that is ultimately my choice.

I understand any tuition paid for the curriculum is non-refundable once the course has begun, despite the length of time spent attending the course. The CE credits, if offered, will reflect the time attended but not to exceed the designated amount. For example, if the participant decided to leave the class prior to its completion and after 3 hours of attendance, then the participant will not be granted a refund for the portion not attended and will receive 3 hours of CE Credit. Northwest Continuing Education Center may give me the opportunity to participate in the portion not completed at a later date, but ultimately it is at Northwest Continuing Education Center's discretion.

The participant can reschedule their class only once and with a minimum of 72 hour notice for Tier One through Three and two week's notice for the On-Site Training. Any rescheduling shorter than the time indicated will result in only a 75% refund.

Northwest Continuing Education Center reserves all rights to refuse to accept a participant or dismiss any participant in cases such as but not limited to disruptive nature during class, unethical or unprofessional conduct, unprofessional behavior towards other participants, instructors, or patients. Furthermore I understand that I need to follow all laws related to HIPPA, OSHA, and any other laws pertaining to the practice of dentistry.

Northwest Continuing Education Center has the final decision in regards to which tier the participant is qualified to participate in.
