

CAPABILITIES STATEMENT:

Red Planet GroupTM

OVERVIEW:

Red Planet Group Inc. is an IT process optimization firm delivering mission-critical technology solutions that improve operational efficiency, strengthen cybersecurity, and maximize the value of federal technology investments. We specialize in AI-driven automation and quantum-resilient security solutions that help agencies streamline operations, reduce non-essential processes, protect sensitive data, and prepare for emerging threats. Our team of former Fortune 500 professionals brings extensive federal experience and a proven focus on mission outcomes.

We help agencies focus resources on core mission priorities, eliminate inefficiencies, and achieve measurable operational and cost-saving results.

CORE CAPABILITIES:

Digital Transformation & Process Optimization:

- SaaS Solutions
- Develop cloud-based software
- Streamline workflows
- Automate repetitive tasks

Quantum-Resilient Encryption/Cybersecurity:

- FedRAMP-Ready, quantum-proof encrypted communications via **NetSfere**
- Assess infrastructure for vulnerabilities
- Identify potential threats

Artificial Intelligence Integration:

- Build custom AI agents
- Automate operations
- Provide predictive analytics

Blockchain/Web3 Solutions:

- Blockchain R&D/Prototyping
- Conduct blockchain investigations
- Detect illicit activity

Contact Us:

PAST PERFORMANCE:

Our team at Red Planet Group Inc. has successfully completed a variety of contracts with the following federal agencies during their tenure at Fortune 500 companies (*these projects were not delivered by Red Planet Group; sub-agency names are being protected*):

Department of Justice: built a modern careers website and a custom Salesforce HR tool.

Department of Energy: Supported transition from Oracle EBS to SAP S/4HANA; re-integration of finance, HR, PM, and operations systems.

DIFFERENTIATORS:

WHAT SETS RED PLANET GROUP APART FROM OTHER CONTRACTORS:

Quantum-Resilience & Emerging Technology:

- Future-ready security solutions that protect sensitive data against evolving cyber threats.

Federal Procurement Experience/Lower Risk:

- Deep knowledge of federal acquisition processes.

Rapid Adaptation & Agile Execution:

- Agile team delivering efficient, adaptive solutions under tight timelines.

Operational Efficiency & Data-Driven Results:

- AI and automation improving efficiency and decision-making.
