

CAPABILITIES STATEMENT:

Red
Planet
Group™

OVERVIEW:

Red Planet Group Inc. delivers mission-critical digital solutions that streamline federal operations, secure sensitive data, and optimize technology investments. Our team of former Fortune 500 professionals brings extensive federal experience, ensuring projects are on time, on budget, and aligned with essential agency priorities.

We help agencies prioritize core missions, reduce non-essential processes, and achieve measurable efficiency gains, supporting strategic federal objectives and operational excellence.

CORE CAPABILITIES:

Digital Transformation & Process Optimization:

- SaaS Solutions
- Develop cloud-based software
- Streamline workflows
- Automate repetitive tasks

Cybersecurity & Compliance:

- FedRAMP-Ready, quantum-proof encrypted communications via **NetSfere**
- Assess infrastructure for vulnerabilities
- Identify potential threats

Artificial Intelligence Integration:

- Build custom AI agents
- Automate operations
- Provide predictive analytics

Blockchain/Web3 Solutions:

- Train staff on Web3
- Conduct blockchain investigations
- Detect illicit activity

Contact Us:

PAST PERFORMANCE:

Our team at Red Planet Group Inc. has successfully completed a variety of contracts with the following federal agencies during their tenure at Fortune 500 companies (*these projects were not delivered by Red Planet Group; sub-agency names are being protected*):

Department of Justice: built a modern careers website and a custom Salesforce HR tool.

Department of Energy: Supported transition from Oracle EBS to SAP S/4HANA; re-integration of finance, HR, PM, and operations systems.

DIFFERENTIATORS:

WHAT SETS RED PLANET GROUP APART FROM OTHER CONTRACTORS:

Mission-Critical Focus:

- Deliver solutions that support essential agency priorities.

Federal Procurement Experience/Lower Risk:

- Deep knowledge of federal acquisition processes.

Rapid Adaptation & Agile Execution:

- Agile team delivering efficient, adaptive solutions under tight timelines.

Operational Efficiency & Data-Driven Results:

- AI and automation improving efficiency and decision-making.
