Global Demand for Indian Skilled Workforce – Recent Developments

In recent months, India has strengthened **bilateral cooperation** with key global economies, including **Russia, Spain, France**, the **European Union**, and the **UAE**, through high-level government engagements involving leaders such as **Vladimir Putin, Pedro Sánchez, Ursula von der Leyen, Emmanuel Macron**, and **Sheikh Mohammed bin Zayed Al Nahyan**.

These engagements have accelerated **skill-mobility initiatives**, enabling Indian skilled professionals to access overseas employment opportunities through **structured quotas agreed with local industries**, in some cases reaching **up to 500,000 positions annually** across multiple sectors.

As a result, **skilled worker placements—particularly in Russia—have begun progressing**, with Indian professionals starting to take up roles from **November 2025 onwards** under emerging workforce mobility frameworks.

Thank you
