ABOUT ME

Annie finds herself very interesting, which is why she is committed to lifelong learning. This growth mindset has led her to circumnavigate the globe while studying world religions, computer coding (because it's way more fun than calculus), and to standup comedy to see if she really is as funny as her mom says that she is. Annie strives to share her joie de vivre everywhere she goes and to leave the world a better place than how she found it. She has never finished a chapstick.

TECHNICAL SKILLS SUMMARY

Ruby, Rails, SQL, JavaScript, React, Redux, Microsoft Office Suite, Asana

TECHNICAL PROJECTS

React Redux Crafts Project - [Github](#) | [Demo](#)

Gives users the ability to read, create, and update crafts, materials, and comments.

- Integrated redux middleware to respond to and modify state change
- Created Rails API to handle data persistence

Sinatra Sewing Project - [Github](#) | [Demo](#)

Allows users to create accounts, login and post sewing projects that they'd like to store

- Validated uniqueness of login attributes to give users the ability to edit their projects
- Used ActiveRecord with Sinatra to give database support

Sewing Rails Portfolio Project - [Github](#) | [Demo](#)

Browse sewing projects and create/edit projects

- Used authentication system to allow login from Github
- Utilized validations to prevent duplicates and invalid data
- Used class level ActiveRecord scope methods to sort projects by popularity or alphabetically

JavaScript & Rails Exercise Routine Project - [Github](#) | [Demo](#)

Using ruby and Vanilla JS, created workout routines and add exercises to them

- Built single page application with an HTML, CSS, and JavaScript frontend and backend API built with Ruby on Rails
- Integrated AJAX and JSON to handle interactions between client and server
